MC-M250

MP3-CD Playback

Distinctive, elegant design and solid sound technology make this a high performing personal audio system. A CD, digital tuner and tape deck, it can play any CD including Expanium MP3-CD playback.

Enrich your sound experience

- Incredible Surround™ for enhanced audio enjoyment
- Digital Sound Control for optimised music style settings
- Dynamic Bass Boost for deep and dramatic sound
- 2-Way Bass Reflex Speaker System with detachable grilles
- 2 x 10 W RMS/2 x 20 W music power

Start the day your way

- Wake-up and sleep timer functions
- Logic tape deck
- Digital tuning with 40 pre-set stations for extra convenience

Longer listening, greater enjoyment

- 10 hours of MP3-CD music

PHILIPS

Highlights

Incredible Surround™

Incredible Surround is an audio technology from Philips that dramatically magnifies the sound field to immerse you in the audio. Using state-of-the-art electronic phase shifting, Incredible Surround mixes sounds from left and right in such a way that it expands the virtual distance between the two speakers. This wider spread greatly enhances the stereo effect and creates a more natural sound dimension. Incredible Surround allows you to experience total surround with greater depth and width of sound, without the use of additional speakers.

Digital Sound Control

Digital Sound Control offers you a choice of pre-set Jazz, Rock, Pop and Classical controls you can use to optimise the frequency ranges for different musical styles. Each mode uses graphic equalizing technology to automatically adjust the sound balance and enhance the most important sound frequencies in your chosen music style. Ultimately, Digital Sound Control makes it easy for you to get the most out of your music by precisely adjusting the sound balance to match the type of music you are playing.

Dynamic Bass Boost

Dynamic Bass Boost maximises your music enjoyment by emphasising the bass content of the music throughout the range of volume settings - from low to high - at the touch of a button! Bottom-end bass frequencies usually get lost when the volume is set at a low level. To counteract this, Dynamic Bass Boost can be switched on to boost bass levels, so you can enjoy consistent sound even when you turn down the volume.

Detachable grilles (2-way LSB)

2-Way Bass Reflex Speaker System with detachable grilles

2 x 10 W RMS/2 x 20 W music power

2 x 10 W RMS/2 x 20 W music power

Wake-up and sleep timer

Many alarm clocks feature a variety of alarm choices. This Philips Clock radio wakens you with the radio or the traditional alarm buzzer. The Sleep Timer allows you to programme the required length of time for the music to coincide with how long you normally take to fall asleep. No matter what your alarm clock needs, whether it's a morning buzzer that produces a steady tone, or listening to your favourite music as you go to sleep, this clock radio has it all.

Logic tape deck

Logic tape deck

40-preset digital tuning

Digital radio offers you additional music options to your music collection on your Philips audio system. Simply tune into the station that you want to preset, press and hold the preset button to memorise the frequency. With preset radio stations that can be stored, you can quickly access your favourite radio station without having to manually tune the frequencies each time.

10 hours of MP3-CD music

MP3 stands for "MPEG 1 Audio layer-3". MP3 is a revolutionary compression technology by which large digital music files can be made up to 10 times smaller without radically degrading their audio quality. MP3 has become the standard audio compression format used on the Internet, allowing quick and easy audio file transfer.

Specifications

Sound

- Output Power: 2 x 20 watts music power
- Sound Enhancement: Incredible Surround, Digital Sound Control 4 modes, Dynamic Bass Boost

Loudspeakers

- Main Speaker: 2-way, Bass Reflex Speaker System, 4" woofer, Piezo tweeter, Speaker grilles detachable
