

Micro music system

- CD, MP3-CD, USB, FM
- 30 W

MCM1350/05

Bring power to your tunes

Obsessed with sound

Listen to all your favourites on your portable music player with USB Direct and Audio in. This Philips Micro music system also plays MP3-CD and CD-R/RW. 30 RMS max output power and Bass Reflex speakers deliver big sound and powerful bass.

Benefits

Enrich your sound experience

- Bass Reflex Speaker System delivers a powerful, deeper bass
- Digital Sound Control for optimised music style settings
- 30 W RMS Maximum output power

Enjoy your music from multiple sources

- Audio-in for portable music playback
- Play MP3-CD, CD and CD-R/RW

- USB Direct for easy MP3 music playback

Easy to use

- Digital tuning with preset stations for extra convenience
- Motorised CD loader for convenient access

PHILIPS

Features

Bass Reflex Speaker System

Bass Reflex Speaker System delivers a deep bass experience from a compact loudspeaker box system. It differs from a conventional loudspeaker box system in the addition of a bass pipe that is acoustically aligned to the woofer to optimise the low frequency roll-off of the system. The result is deeper controlled bass and lower distortion. The system works by causing the air mass in the bass pipe to vibrate like a conventional woofer. Combined with the response of the woofer, the system extends the overall low frequency sounds to create a completely new dimension of deep bass.

Audio-in

The Audio-in connectivity allows direct playback of Audio-in content from portable media players. Besides the benefit of enjoying your favourite music in the superior sound quality delivered by the audio system, the Audio in is also

extremely convenient as all you have to do is to plug your portable MP3 player into the audio system.

Digital Sound Control

Digital Sound Control offers you a choice of pre-set Balance, Clear, Powerful, Warm and Bright controls you can use to optimise the frequency ranges for different musical styles. Each mode uses graphic equalizing technology to automatically adjust the sound balance and enhance the most important sound frequencies in your chosen music style. Ultimately, Digital Sound Control makes it easy for you get the most out of your music by precisely adjusting the sound balance to match the type of music you are playing.

USB Direct for easy MP3 music

Thanks to the complete file transferability, you can easily enjoy the convenience and fun of accessing more digital music via the built-in USB Direct.

Specifications
