Breathe the difference

The reassurance of 99.97% purification

The NanoProtect S3 filter captures 99.97% of 0.3 μm particles, including common allergens, dust, pollution, bacteria and some viruses. The 24 month lifetime delivers long lasting performance, ensuring the air you breathe is kept cleaner, for longer.

Superior purification

- Filters 99.97% of 0.3 μm particles*

Long-lasting performance

- As long as 24 months lifetime*

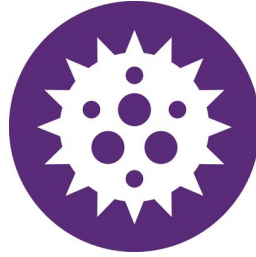

Highlights

Longer lifetime

Philips NanoProtect S3 filter has multiple optimised pleats. This covers an unfolded area of about 2 m² to ensure a long lifetime.

Superior performance

Philips NanoProtect S3 filter is made from high-quality material. It can capture up to 99.97% of particles even as small as 0.3 microns - the size of most common airborne allergens, harmful particles, bacteria and viruses. The high-grade filter with firm and stable structure ensures all the air flows through the filter and delivers high filtration efficiency.

Specifications

Replaceable part

Fits product types: AC2882/10, AC2887/10, AC2889/10
