Highlights

V-Track precision blade system

Get the perfect close shave. The V-Track Precision Blades gently position each hair in the best cutting position, even the flat laying and different length of hairs. Cuts 30% closer in less strokes leaving your skin in great condition.

8-direction ContourDetectHeads

Follow every contour of your face and neck with 8-directional ContourDetect heads. You'll catch 20% more hairs with every pass. Resulting in an extremely close, smooth shave.

72 internal rotating blades

72 rotating blades. 151 000 cuts per minute. Zero hairs left standing – no matter what direction they're growing in.

Comfort rings

Our comfort rings contain a unique coating – consisting of 1 billion powder-like beads – which creates a soft, low-resistance surface. This smooth surface enables the shaver to glide effortlessly across your face, reducing irritation during, and dryness after, shaving.

Full metal frame

The body of this shaver is produced from exceptional metals, creating an object of desire with unmatched quality. At the end of its production, it is meticulously polished to a perfect finish.

Genuine leather pouch

Crafted from the finest leathers dyed in rich, deep colors, the storage case protects your shaver with elegance. Its built-in ventilation chamber allows the shaver to dry, even when you're on the go.

Exquisitely designed stand

Display your shaver with style every day. The sleek metal disk seamlessly matches and holds the full metal frame of your shaver in a stately upright position.

Personal comfort settings

Choose between 3 modes to customize your shave: Sensitive – for a gentle, yet thorough shave. Normal – for a thorough, everyday shave. Fast – for a quick shave that saves you time.

SmartClick cleansing brush

Click on brush to cleanse more thoroughly than by hand*. Use it with the cleanser of your choice. It removes dead skin cells and increases micro-circulation, leaving your skin feeling fresh and radiant.
