

GeForce® GTX 1050 2G

msi Graphics Card

All Solid Capacitors

- 10 years long lifetime under full load.
- Lower temperature and higher efficiency.
- Aluminum core for higher stability.

Product Specifications		Technology Support	
Model Name	GeForce® GTX 1050 2G	Afterburner OC	Y
Model	V809	DirectX®	12
Graphics Processing Unit (GPU)	NVIDIA GeForce® GTX 1050	OpenGL	4.5
Interface	PCI Express x16 3.0	Multi-GPU technology	N
Core name	GP107-300	Multi-Display technology	Simultaneous Multi-Projection
CUDA Cores	640 Units	Maximum Displays	3
Boost / Base Core Clocks	1455 / 1354 MHz	VR Ready	N
Memory Clock	7000 MHz	GameWorks™ technology	Y
Memory Size	2GB GDDR5	GameStream™ technology	Y
Memory Bus	128-bit	G-SYNC™ technology	Y
Output	DisplayPort / HDMI / DL-DVI-D	Adaptive Vertical Sync	Y
Power Consumption	75 W	HDCP Capable	2.2
Recommended PSU	300 W	NVIDIA Ansel	Y
Card Dimensions	177*118*34 mm	Power Saving technology	GPU Boost™ 3.0
Weight (Card / Package)	330 g / 687 g	Accessories	
Form Factor	ATX	Driver CD	Y
		Installation Guide	Y

Afterburner

Overclocking Utility

- Wireless control through Android/iOS devices.
- Predator: In-game video recording.
- Kombustor: built-in DirectX12 benchmark.

NVIDIA G-SYNC™

- Synchronizes the display refresh to your GeForce GTX GPU for the fast, smooth gaming
