PHILIPS

Highlights

Accurate

Fast and accurate measurements in-ear. The Philips ear thermometer uses in-ear measurement to offer precise readings you can be confident are accurate. The thermometer offers a accurate measurements of ±0.2°C (±0.4°F) within the range of 32.4°C - 42.9°C (90.3°F - 109.3°F).?

Phone compatibility

Automatically transfer your measurements to the Philips HealthSuite health app on your smart phone, so you can monitor changes over time. Compatible with iOS8 or higher/Android 4.4 or higher.

Fast

Specially designed for speed and ease. Just one press of the button and you will have a reading in 2 seconds.

Easy and comfortable to use

The thermometer has a simple one-touch button and a probe tip that is comfortable to insert and suitable for use by all ages (newborn and up) No replacement caps required. Just clean the thermometer tip before usage.

Celcius and Fahrenheit

No matter whether you measure in Celcius or Fahrenheit, the Philips HeathSuite Ear thermometer will give you the results you need in the scale you understand

Track your results over time

Determine your normal body core temperature so you can track and spot changes quickly and easily in the Philips HealthSuite health app.

Red LED display

The Philips ear thermometer has a clear LCD display so you can instantly see if the temperature reading is at normal* or raised levels. The light ring turns red for a temperature of 38.0°C (100.4°F) and higher. *Normal temperature ranges differ per age group. 38.0°C (100.4°F) is still within normal temperature range for babies.

Philips Green Logo

Philips Green Products can reduce costs, energy consumption and CO2 emissions. How? They offer a significant environmental improvement in one or more of the Philips Green Focal Areas – Energy efficiency, Packaging, Hazardous substances, Weight, Recycling and disposal and Lifetime reliability.
