Product Features

- Split and transmit an HDMI signal on two VGA displays simultaneously
- Supports video resolutions up to 1920 x 1440, including 1080p
- Compact design features a built-in HDMI cable to connect to the source
- No external power supply required; USB Micro-B port supplies power to the unit
- Supports 3.5 mm mini stereo audio
- HDCP, EDID and 3D compliant
- Compatible with all operating systems
- Plug-and-play; no software or drivers required

Package Includes

- P131-06N-2VA-U
- USB Micro-B Cable – 3 ft.
- Owner's Manual

Optional Accessories

- P312-Series 3.5 mm Mini Stereo Audio Cables
- P502-Series SVGA/VGA Monitor Cable with RGB Coax
- P504-Series SVGA/VGA Monitor Cables with Audio and RGB Coax
- UR05C-Series USB Micro-B Charge-Only Cables
- U280-002-W12 2-Port USB Wall Charger
- UAC-1B 1-Port USB Wall Charger

System Requirements

- A computer, Blu-ray™, or other HDMI source with an HDMI output port
- An available USB port for power
- Up to two displays with VGA input ports

Installation

Note:

- *The video port on the same side of the unit as the USB Micro-B port is the only port that will transmit EDID information to the connected source. Connect this port to the monitor that has the EDID information you wish to use.*
- 1.** Make sure the power to all devices you are connecting is turned off prior to installation.
 - 2.** Connect the built-in HDMI cable to the source video output port.
 - 3.** Connect the included USB Micro-B cable between the unit and a USB port on the source or a USB wall outlet.
 - 4.** Connect the monitor that has the EDID information you wish to use to the video output port on the same side of the unit as the USB Micro-B port using a VGA cable, such as Tripp Lite's P504-Series VGA + Audio Cable.
 - 5.** Connect the 3.5 mm audio port to the audio jack on your monitor or speakers.
 - 6.** Connect a second monitor to the remaining video output port using a VGA cable, such as Tripp Lite's P504-Series VGA + Audio Cable.
 - 7.** Connect the second 3.5 mm audio port to the audio jack on your monitor or speakers.
 - 8.** Turn on the power to the source and displays. The orange LEDs next to each video output port will illuminate to indicate the unit is powered on and transmitting a signal to the connected monitors.

Troubleshooting

If you are unable to get an acceptable image after following the installation instructions, try the troubleshooting tips below.

1. Is the USB Micro-B cable that came with the product connected and plugged into a working power source?

For the product to function properly, it must be connected to and receiving power from the USB Micro-B cable.

2. Was the power to the source turned off prior to installation?

If not, restart your computer.

3. What resolution are you trying to reach?

See the **Product Features** section in this manual for details on maximum resolution. If you are not able to get an acceptable image, try lowering your computer's video resolution or adjusting the refresh rate.

4. What type of cabling are you using?

Inferior cabling can result in poor performance, so it is important that you use cables that can support the video resolution you are trying to obtain. The P131-06N-2VA-U has been tested to work with the Tripp Lite video cables recommended for use in the **Optional Accessories** section of this manual.

Troubleshooting

5. Test your cables to ensure they are working properly.

For example, connect your cable directly between a computer and a monitor to verify that the video can be displayed.

6. Do you have a splitter, switch or other device in between the computer and the unit?

Tripp Lite's P131-06N-2VA-U was designed to connect directly with the source computer via the built-in HDMI cable. If you have a splitter, switch, or other device in between, it should be removed from the installation.

Warranty and Product Registration

1-YEAR LIMITED WARRANTY

TRIPP LITE warrants its products to be free from defects in materials and workmanship for a period of one (1) year from the date of initial purchase. TRIPP LITE's obligation under this warranty is limited to repairing or replacing (at its sole option) any such defective products. To obtain service under this warranty, you must obtain a Returned Material Authorization (RMA) number from TRIPP LITE or an authorized TRIPP LITE service center. Products must be returned to TRIPP LITE or an authorized TRIPP LITE service center with transportation charges prepaid and must be accompanied by a brief description of the problem encountered and proof of date and place of purchase. This warranty does not apply to equipment, which has been damaged by accident, negligence or misapplication or has been altered or modified in any way.

EXCEPT AS PROVIDED HEREIN, TRIPP LITE MAKES NO WARRANTIES, EXPRESS OR IMPLIED, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

Warranty and Product Registration

Some states do not permit limitation or exclusion of implied warranties; therefore, the aforesaid limitation(s) or exclusion(s) may not apply to the purchaser.

EXCEPT AS PROVIDED ABOVE, IN NO EVENT WILL TRIPP LITE BE LIABLE FOR DIRECT, INDIRECT, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OF THIS PRODUCT, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGE. Specifically, TRIPP LITE is not liable for any costs, such as lost profits or revenue, loss of equipment, loss of use of equipment, loss of software, loss of data, costs of substitutes, claims by third parties, or otherwise.

FCC Notice, Class B

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.

Warranty and Product Registration

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Any changes or modifications to this equipment not expressly approved by Tripp Lite could void the user's authority to operate this equipment.

WEEE Compliance Information for Tripp Lite Customers and Recyclers (European Union)

Under the Waste Electrical and Electronic Equipment (WEEE) Directive and implementing regulations, when customers buy new electrical and electronic equipment from Tripp Lite they are entitled to:

- Send old equipment for recycling on a one-for-one, like-for-like basis (this varies depending on the country)
- Send the new equipment back for recycling when this ultimately becomes waste

Warning

Use of this equipment in life support applications where failure of this equipment can reasonably be expected to cause the failure of the life support equipment or to significantly affect its safety or effectiveness is not recommended. Do not use this equipment in the presence of a flammable anesthetic mixture with air, oxygen or nitrous oxide.

Tripp Lite has a policy of continuous improvement. Specifications are subject to change without notice.
