LIMITATION OF LIABILITY

Circumstances may arise where because of a default on ASUS' part or other liability, you are entitled to recover damages from ASUS. In each such instance, regardless of the basis on which you are entitled to claim damages from ASUS, ASUS is liable for no more than damages for bodily injury (including death) and damage to real property and tangible personal property; or any other actual and direct damages resulted from omission or failure of performing legal duties under this Warranty Statement, up to the listed contract price of each product.

ASUS will only be responsible for or indemnify you for loss, damages or claims based in contract, tort or infringement under this Warranty Statement.

This limit also applies to ASUS' suppliers and its reseller. It is the maximum for which ASUS, its suppliers, and your reseller are collectively responsible.

UNDER NO CIRCUMSTANCES IS ASUS LIABLE FOR ANY OF THE FOLLOWING: (1) THIRD-PARTY CLAIMS AGAINST YOU FOR DAMAGES; (2) LOSS OF, OR DAMAGE TO, YOUR RECORDS OR DATA; OR (3) SPECIAL, INCIDENTAL, OR INDIRECT DAMAGES OR FOR ANY ECONOMIC CONSEQUENTIAL DAMAGES (INCLUDING LOST PROFITS OR SAVINGS), EVEN IF ASUS, ITS SUPPLIERS OR YOUR RESELLER IS INFORMED OF THEIR POSSIBILITY.

About this manual

This manual provides information about the hardware and software features of your ASUS All-in-One PC, organized through the following chapters:

Chapter 1: Hardware Setup

This chapter details the hardware components of your ASUS All-in-One PC.

Chapter 2: Using your ASUS All-in-One PC

This chapter provides you with information on using your ASUS All-in-One PC.

Chapter 3: Working with Windows® 8.1

This chapter provides an overview of using Windows® 8.1 in your ASUS All-in-One PC.

Chapter 4: Recovering your system

This chapter provides recovery options for your ASUS All-in-One PC.

Chapter 5: Upgrading your ASUS All-in-One PC

This chapter guides you through the process of replacing and upgrading parts of your All-in-One PC.

Appendices

This section includes notices and safety statements for your ASUS All-in-One PC.

Conventions used in this manual

To highlight key information in this manual, some texts are presented as follows:

IMPORTANT! This message contains vital information that must be followed to complete a task.

NOTE: This message contains additional information and tips that can help complete tasks.

WARNING! This message contains important information that must be followed to keep you safe while performing tasks and prevent damage to your device's data and components.

Typography

Bold = This indicates a menu or an item that must be selected.

Italic = This indicates sections that you can refer to in this manual.

Icons

The icons below indicate the devices you can use for completing a series of tasks or procedures on your ASUS All-in-One PC.

= (optional) Use the touch screen panel.

= (optional) Use the wireless mouse.

= (optional) Use the wireless keyboard.

All illustrations and screenshots in this manual are for reference only. Actual product specifications and software screen images may vary with territories. Visit the ASUS website at www.asus.com for the latest information.

Safety information

Your All-in-One ASUS All-in-One PC is designed and tested to meet the latest standards of safety for information technology equipment. However, to ensure your safety, it is important that you read the following safety instructions.

Setting up your system

- Read and follow all instructions in the documentation before you operate your system.
- Do not use this product near water or a heated source such as a radiator.
- Set up the system on a stable surface.
- Openings on the chassis are for ventilation. Do not block or cover these openings. Ensure that you leave plenty of space around the system for ventilation. Never insert objects of any kind into the ventilation openings.
- Use this product in environments with ambient temperatures between 0°C and 40°C.
- If you use an extension cord, ensure that the total ampere rating of the devices plugged into the extension cord does not exceed its ampere rating.

Care during use

- Do not walk on the power cord or allow anything to rest on it.
- Do not spill water or any other liquids on your system.
- When the system is turned off, a small amount of electrical current still remains in the product. Always unplug all power, modem, and network cables from the power outlets before cleaning the system.

- The touch screen requires periodic cleaning to perform at optimal touch sensitivity. Keep the screen clean from foreign objects or excessive dust accumulation. To clean the screen:
 - Turn off the system and disconnect the power cord from the wall.
 - Spray a small amount of household glass cleaner on the supplied cleaning cloth and gently wipe the surface of the screen.
 - Do not spray the cleaner directly on the screen.
- Do not use an abrasive cleaner or a coarse cloth when cleaning the screen.
- If you encounter the following technical problems with the product, unplug the power cord and contact a qualified service technician or your retailer.
 - The power cord or plug is damaged.
 - Liquid has been spilled into the system.
 - The system does not function properly even if you follow the operating instructions.
 - The system was dropped or the cabinet is damaged.
 - The system performance changes.

Sound Pressure Warning

Excessive sound pressure from earphones or headphones can cause hearing loss or permanent damage to hearing. Increasing the volume and equalizer beyond default levels increases the output voltage and sound pressure produced by the earphones or headphones.

DC Fan Warning

Please note that the DC fan is a moving part and can cause harm when used improperly. Keep away from the fan when using the product.

Chapter 1: Hardware Setup

Getting to know your ASUS All-in-One PC

Front view

1 Webcam microphone

The built-in digital microphone can be used for video conferencing, voice narrations, audio recordings, and multimedia applications.

2 Webcam

The built-in camera allows you to take pictures or record videos using your ASUS All-in-One PC. On selected models, The built-in webcam comes with a built-in digital microphone that allows you can use to make video chat online.

3 Webcam LED

Indicates that the built-in webcam is enabled.

4 LCD Display (Touch-enabled function on selected models)

The 20-inch LCD display panel provides excellent viewing features for photos, videos, and other multimedia files.

On selected models, two-point touch is supported. You can operate your ASUS All-in-One PC using touch gestures.

5

Hard Disk Drive (HDD) indicator

This LED power indicator Indicates hard disk drive activity.

6

Volume down button

Press this button to decrease the volume.

7

Volume up button

Press this button to increase the volume.

8

Brightness down button

Press this button to decrease the brightness of your ASUS All-in-One PC.

9

Brightness up button

Press this button to increase the brightness of your ASUS All-in-One PC.

10

Power button

Press the power button to turn your ASUS All-in-One PC on or off. You can also use the power button to put your ASUS All-in-One PC to sleep or hibernate mode and wake it up from sleep or hibernate mode.

In the event that your ASUS All-in-One PC becomes unresponsive, press and hold the power button for about four (4) seconds until your ASUS All-in-One PC shuts down.

Side views

Refer to the following diagrams to identify the components on both sides of the system.

Left side view

Right side view

1 **6-in-1 card reader**

This ASUS All-in-One PC has a built-in memory card reader slot that supports MMC, SD, SDHC, SDXC, MS, and MS PRO cards.

2 **USB 2.0 port**

This USB (Universal Serial Bus) port is compatible with USB 2.0 or USB 1.1 devices such as keyboards, pointing devices, flash disk drives, external HDDs, speakers, cameras and printers.

3 **USB 3.0 ports**

These Universal Serial Bus 3.0 (USB 3.0) ports connect to USB 3.0 devices such as a mouse, printer, scanner, camera, and others.

4 HDMI HDMI-out port

This port is for a High-Definition Multimedia Interface (HDMI) connector and is HDCP compliant for HD DVD, Blu-ray, and other protected content playback.

5 Microphone input jack port

This port allows you to connect your ASUS All-in-One PC to an external microphone.

6 Headphone / Audio Out jack

This combo jack supports speakers and headphones.

7 Optical Disc Drive manual eject hole

The manual eject hole is used to eject the drive tray in case the electronic eject button does not work.

WARNING! Use the manual eject hole only when the electronic eject button does not work.

8 Optical Disc Drive electronic eject button

Press this button to eject the optical drive tray.

You can also eject the drive tray using your media player or by right-clicking the optical drive icon in Windows File Explorer and clicking **Eject**.

9 Optical Disc Drive LED indicator

Indicates Optical Disk Drive activity.

Rear view

Refer to the following diagram to identify the components on this side of the system.

1 Kensington® lock port

The Kensington® lock port allows you to secure your ASUS All-in-One PC using Kensington® compatible security products.

2 Air vents

The air vents allow cool air to enter and warm air to exit the ASUS All-in-One PC.

WARNING! Ensure that paper, books, clothing, cables, or other objects do not block any of the air vents or else overheating may occur.

3

Stand

Allows you to position the system upright.

4

**Power input**

The bundled power adapter converts AC power to DC power for use with this jack. Power supplied through this jack supplies power to the PC. To prevent damage to the PC, always use the bundled power adapter.

WARNING! The power adapter may become warm or hot when in use. Do not cover the adapter and keep it away from your body.

5

**USB 2.0 port**

This USB (Universal Serial Bus) port is compatible with USB 2.0 or USB 1.1 devices such as keyboards, pointing devices, flash disk drives, external HDDs, speakers, cameras and printers.

6

**Display (Monitor) Output**

The 15-pin D-sub monitor port supports a standard VGA-compatible device such as a monitor or projector to allow viewing on a larger external display.

7

**LAN port**

This 8-pin RJ-45 LAN port supports a standard Ethernet cable for connection to a local network.

8

Serial port

This 9-pin serial port (COM1) is for serial devices.

9

DIMM door

The DIMM door secures the RAM modules of your All-in-One PC.

IMPORTANT!

- Your All-in-One PC comes with a pre-installed RAM module. We recommend that you purchase the same model and speed of RAM module when you perform an upgrade or replacement. Visit an authorized service center or retailer for information on RAM module upgrades for your ASUS All-in-One PC.
 - For more information on how to add RAM modules to your PC, refer to the *Installing a Random-access Memory module* section in this user guide.
-

Chapter 2: Using your ASUS All-in-One PC

Placing on the desktop

Place your ASUS All-in-One PC on a flat surface such as a table or desk, and pull the stand open until it snaps in place. Then, tilt the display panel to an angle of between 15 and 30 degrees from an upright position.

Installing the wall mount screw (optional)

To mount your ASUS All-in-One PC to the wall, purchase the optional wall mount screws and wall mount kit (pad and rack; VESA100, 100mm x 100 mm). Install the wall mount screws according to the following instructions.

1. Place your ASUS All-in-One PC face-down on a flat surface, such as a table or desk, and then remove the two screws beside the stand. Keep the screws for future use in case you want to reinstall the stand.

2. Press the stand downward (A), shove it forward (B) then lift (C) to release the stand. Take out the stand and put it aside.

3. Remove the four plastic caps, from the rear panel holes,.

4. Secure the four wall mount screws to the rear panel holes.

5. Mount the ASUS All-in-One PC onto a firm wall by applying a standard wall mount kit (pad and rack) to the wall mount screws. Follow the instructions described in the installation manual that came with your wall mount kit.

NOTES:

- The wall mount screws are optional accessories.
 - The wall mount kit should comply with VESA 100 standards, which can be purchased separately.
 - To ensure safety, please read the wall mount kit installation manual carefully before mounting your ASUS All-in-One PC to the wall.
-

Connecting the wired keyboard and mouse

Connect the keyboard and mouse to the USB ports on the rear panel. You may also connect the keyboard and mouse to the USB port on the side panel if the keyboard and mouse cable is not long enough.

Setting up your ASUS All-in-One PC

Connecting the wireless keyboard and mouse (optional)

1. Install batteries into the wireless keyboard and mouse.

2. Connect the wireless dongle for keyboard and mouse to the USB port.

3. You can begin using the wireless keyboard and mouse.

Powering on the system

Connect the supplied AC adapter to the **DC IN** jack on the rear panel (1, 2, and 3) and then press the **Power button** on the front panel (4) to turn on the system.

WARNING! DO NOT connect the AC power cord to an AC outlet prior to connecting the DC plug to the system. Doing so may damage the AC-DC adapter.

NOTE: For details in turning off your ASUS All-in-One PC, refer to the section *Turning off your ASUS All-in-One PC* in *Working with Windows® 8.1*.

NOTES:

- The input voltage of the adapter is 100 Vac – 240 Vac.
 - It is recommended that the power socket is in close proximity to the ASUS All-in-One PC.
 - The keyboard, mouse, and power supply illustrations are for reference only. Actual product specifications may vary with territories.
 - ASUS All-in-One PC does not support wake on WLAN.
 - For details on turning off your ASUS All-in-One PC, refer to the *Turning off your ASUS All-in-One PC* section in this manual.
-

Using the touch screen

The 20-inch LCD screen panel of your All-in-One PC provides excellent viewing features for photos, videos, and other multimedia files on your PC.

On selected models, two-point touch is supported. With the two-point touch features, you can operate your All-in-One PC using gestures.

NOTE: The illustration above is for reference only. The appearance of your AiO PC may vary depending on the model.

Using touch screen panel gestures (on selected models)

NOTE: The following screenshots are for reference only. The touch screen panel's appearance may vary depending on model.

The gestures allow you to launch programs and access the settings of your ASUS All-in-One PC. The functions can be activated by using the hand gestures to your ASUS All-in-One PC's touch screen panel.

Zoom out

Bring together your two fingers on the touch panel.

Zoom in

Spread apart your two fingers on the touch panel.

Tap/Double tap

- Tap an app to launch it.
- On Desktop mode, double-tap an item to launch it.

Tap/click and hold

- To move an app, tap and hold the app tile and drag it to a new location.
- To close an app, tap and hold the top side of the running app and drag it down to the bottom of the screen to close it.

Chapter 3: Working with Windows® 8.1

NOTE: The operating system varies with country or region.

Starting for the first time

When you start your computer for the first time, a series of screens appear to guide you in configuring your Windows® 8.1 operating system.

To start your ASUS All-in-One PC for the first time:

1. Press the power button on your ASUS All-in-One PC. Wait for a few minutes until the setup screen appears.
2. From the setup screen, pick your region and a language to use on your ASUS All-in-One PC.
3. Carefully read the License Terms. Select **I accept**.
4. Follow the onscreen instructions to configure the following basic items:
 - Personalize
 - Get online
 - Settings
 - Your account
5. After configuring the basic items, Windows® 8.1 proceeds to install your apps and preferred settings. Ensure that your ASUS All-in-One PC is kept powered on during the setup process.
6. Once the setup process is complete, the Start screen appears.

Windows® UI

Windows® 8.1 comes with a tile-based user interface (UI) which allows you to organize and easily access Windows® apps from the Start screen. It also includes the following features that you can use while working on your ASUS All-in-One PC.

Start screen

The Start screen appears after successfully signing in to your user account. It helps organize all the applications you need in just one place.

Windows® Apps

These are apps pinned on the Start screen and displayed on tiled-format for easy access.

NOTE: Some apps require signing in to your Microsoft account before they are fully launched.

Hotspots

Onscreen hotspots allow you to launch programs and access the settings of your ASUS All-in-One PC. The functions in these hotspots can be activated using your mouse.

Hotspots on a running app

Hotspots on the Start screen

Hotspot	Action
upper left corner	Hover your mouse pointer on the upper left corner then tap/click on the recent app's thumbnail to revert back to that running app. If you launched more than one app, slide down to show all running apps.
lower left corner	From a running app screen: Hover your mouse pointer on the lower left corner then tap/click  to go back to the Start screen. NOTE: You can also press the Windows key  on your keyboard to go back to the Start screen. From the Start screen: Hover your mouse pointer on the lower left corner then tap/click  to go back to that app.

Hotspot	Action
top side	Hover your mouse pointer on the top side until it changes to a hand icon. Drag then drop the app to a new location. NOTE: This hotspot function only works on a running app or when you want to use the Snap feature. For more details, refer to the Snap feature section under <i>Working with Windows® apps</i>.
upper or lower right corner	Hover your mouse pointer on the upper or lower right corner to launch the Charms bar.

Start button

Windows® 8.1 features the Start button which allows you to switch between the two most recent apps you opened. The Start button may be accessed from the Start screen, while on Desktop mode, and on any app that is currently open onscreen.

Start button on the Start screen

NOTE: The actual color of your Start button varies depending on the display settings you chose for your Start screen.

Hover your mouse pointer over the left corner of your Start screen or any opened app to call out the Start button.

Start button on Desktop mode

Context menu

The context menu appears as a box filled with quick access to some of the programs inside Windows® 8.1 when you right-click on the Start button.

The context menu also includes the following shut down options for your ASUS All-in-One PC: sign out, sleep, shut down, restart.

Customizing your Start screen

Windows® 8.1 also enables you to customize your Start screen, allowing you to boot directly to the Desktop mode and customize the arrangement of your apps onscreen.

To customize the settings of your Start screen:

1. Launch the Desktop.
2. Right-click anywhere on the taskbar, except on the Start button, to launch the pop-up window.
3. Click **Properties** then select the **Navigation** tab to tick the Navigation and Start screen options you want to use.

4. Tap/click **Apply** to save the new settings then exit.

Working with Windows® apps

Use your ASUS All-in-One PC's touch screen panel or optional keyboard and mouse to launch, customize, and close apps.

Launching apps

Tap an app to launch it.

Position your mouse pointer over the app then left-click or tap once to launch it.

Press  twice then use the arrow keys to browse through the apps. Press  to launch an app.

Customizing apps

You can move, resize, unpin, or close apps from the Start screen using any of the following options:

Moving apps

Tap and hold the app tile then drag it to a new location.

Double-click on the app then drag and drop the app to a new location.

Resizing apps

Tap and hold the app to activate the Customize bar then tap  and select an app tile size.

Right-click on the app to activate the Customize bar, then click  and select an app tile size.

Unpinning apps

Tap and hold the app to activate the Customize bar, then tap

to unpin an app.

Right-click on the app to activate the Customize bar then click

Closing apps

Tap and hold the top side of the running app then drag it down to the bottom of the screen to close it.

1. Move your mouse pointer on the top side of the launched app then wait for the pointer to change to a hand icon.
2. Drag then drop the app to the bottom of the screen to close it.

From the running app's screen, press alt + f4.

Accessing the Apps screen

Aside from the apps already pinned on your Start screen, you can also open other applications through the Apps screen.

NOTE: Actual apps shown onscreen may vary per model. The following screenshot is for reference only.

Launching the Apps screen

Launch the Apps screen using the following options:

Swipe up on the Start screen.

On the Start screen, click the  button.

From the Start screen, Press  then press

Pinning more apps on the Start screen

You can pin more apps on the Start screen using the following options:

1. Launch the All Apps screen.
2. Tap and hold an app you want to add on the start to activate the Customize bar. Once the Customize bar is launched, you may also tap other more apps to add on the Start screen.
3. Tap  to pin the selected apps on the Start screen.

1. Launch the All Apps screen
2. Right-click on the apps that you want to add on the Start screen.
3. Click on the  icon to pin the selected apps on the Start screen.

Charms bar

The Charms bar is a toolbar that can be triggered on the right side of your screen. It consists of several tools that allow you to share applications and provide quick access for customizing the settings of your ASUS All-in-One PC.

Charms bar

Inside the Charm bar

Search

This charm allows you to look for files, applications, or programs in your ASUS All-in-One PC.

Share

This charm allows you to share applications via social networking sites or email.

Start

This charm reverts the display back to the Start screen. From the Start screen, you can also use this to revert back to a recently opened app.

Devices

This charm allows you to access and share files with the devices attached to your ASUS All-in-One PC such as an external display or printer.

Settings

This charm allows you to access the PC settings of your ASUS All-in-One PC.

Snap feature

The Snap feature displays two apps side-by-side, allowing you to work or switch between apps.

Snap bar

Using Snap

Activate and use Snap through any of the following options:

1. Launch the app you wish to snap.
2. Tap and hold the app's topmost part then drag it to the left or right side of the screen until the snap bar appears.
3. Launch another app.

1. Launch the app you wish to snap.
2. Hover the mouse point on the top side of your screen.
3. Once the pointer changes to a hand icon, drag then drop the app to the left or right side of the display panel.
4. Launch another app.

1. Launch the app you wish to snap.
2. Press  and the left or right arrow key to snap the app to the left or right pane.
3. Launch another app. This app is automatically placed in the empty pane.

Other keyboard shortcuts

Using the keyboard, you can also use the following shortcuts to help you launch applications and navigate Windows® 8.1.

Switches between the Start screen and the last running app

Launches the desktop

Launches the **This ASUS All-in-One PC** window on Desktop mode

Opens the **File** option from the **Search** charm

Opens the **Share** charm

Opens the **Settings** charm

Opens the **Devices** charm

Activates the Lock screen

Minimizes all currently active windows

Launches the **Project** pane

Opens the **Everywhere** option from the **Search** charm

Opens the **Run** window

Opens **Ease of Access Center**

Opens the **Settings** option under the **Search** charm

Opens the context menu of the Start button

Launches the magnifier icon and zooms in your screen

Zooms out your screen

Opens the **Narrator Settings**

Setting up a secondary display via the HDMI-output port

If you want to use a high-definition TV as an audio output device, follow the steps below to configure the audio settings.

To configure the audio output via an HDMI device:

1. From the Start screen, launch the Desktop Mode.

NOTE: For more details, refer to the section *Start screen* under *Using Windows® 8.1*.

2. Right-click the Volume Mixer icon on the Windows® taskbar and click **Playback devices**.

3. From the Playback screen, select **Digital Audio (HDMI)**.
4. Click **Configure** and the Speaker Setup window pops up.

5. Select **Stereo** and click **Next**.

6. Tick the **Front left and right** option then click **Next**.
7. Click **Finish** to exit the speaker setup.

Connecting to the Internet

Access emails, surf the Internet, and share applications via social networking sites on or from your ASUS All-in-One PC using wireless/Wi-Fi or wired connection.

Setting up a Wi-Fi connection in Windows® 8.1

1. Launch the Charm bar from the Start screen or from any application mode.

NOTE: For details, refer to the **Charm bar** section under **Working with Windows® apps**.

2. From the Charm bar, select **Settings** and click the network icon

3. Select the wireless network that you want to connect to from the list.
4. Click **Connect**.

NOTE: You may be prompted to enter a security key to connect to a secured wireless network.

Configuring your Wi-Fi bandwidth

1. Launch the Desktop mode then right-click  on the taskbar.
2. Select **Open Network and Sharing Center**.
3. In the Network and Sharing Center window, select the Wi-Fi status beside **Connections**.
4. In the Wi-Fi status window, select **Properties > Configure** to launch your current network adapter's properties.
5. In the your current network adapter properties window, select the **Advanced** tab.
6. In the Advanced tab, select **Bandwidth Capability** under the **Property** option then select your preferred bandwidth setting by clicking on the drop-down box below **Value**.
7. Click **OK** to save and exit.

Wired connection

1. Use a network (RJ-45) cable to connect your ASUS All-in-One PC to a DSL/cable modem or a local area network (LAN).
2. Turn on your computer.
3. Configure the necessary Internet connection settings.

NOTES:

- For more details, refer to the sections **Configuring a dynamic IP/PPPoE network connection** or **Configuring a static IP network connection**.
 - Contact your Internet Service Provider (ISP) for details or assistance in setting up your Internet connection.
-

Configuring a dynamic IP/PPPoE network connection

To configure a dynamic IP/PPPoE or static IP network connection:

1. From the Start screen, click **Desktop** to launch the Desktop mode.
2. From the Windows® taskbar, right-click the network icon  and click **Open Network and Sharing Center**.
3. From the Open Network and Sharing Center screen, click **Change Adapter settings**.
4. Right-click on your LAN and select **Properties**.
5. Click **Internet Protocol Version 4(TCP/IPv4)** and click **Properties**.

6. Click **Obtain an IP address automatically** and click **OK**.

NOTE: Continue to the next steps if you are using PPPoE connection.

7. Return to the **Network and Sharing Center** and then click Set up a new connection or network.
8. Select **Connect to the Internet** and click **Next**.
9. Select **Broadband (PPPoE)** and click **Next**.
10. Enter your **Username**, **Password**, and **Connection name**. Click **Connect**.
11. Click **Close** to finish the configuration.
12. Click the network icon in the taskbar and click the connection you just created.
13. Enter your user name and password. Click **Connect** to connect to the Internet.

Configuring a static IP network connection

To configure a static IP network connection:

1. Repeat steps 1 to 4 of the previous section **Configuring a dynamic IP/PPPoE network connection**.
2. Click **Use the following IP address**.
3. Enter the IP address, Subnet mask and Gateway from your service provider.
4. If needed, enter the preferred DNS Server address and alternative address.
5. When done, click **OK**.

Setting up a Bluetooth Wireless Connection

Bluetooth technology eliminates the need for cables for connecting to Bluetooth-enabled devices. Examples of Bluetooth-enabled devices include ASUS All-in-One PCs, Desktop PCs, and mobile phones.

NOTE: If your ASUS All-in-One PC do not come with a built-in Bluetooth, you need to connect a USB Bluetooth module in order to use Bluetooth.

To add a Bluetooth device in Windows® 8.1:

1. Double-click the Wireless Console icon in the Windows notification area and select the Bluetooth icon. You can also press <FN>+<F2> until the wireless LAN and Bluetooth are enabled.
2. Click the Bluetooth logo on the System Tray and select **Add a Device** from the context menu .
3. In the PC settings window, click **Add a device** to look for an available Bluetooth devices.
4. Select a Bluetooth device from the list.
5. From the Bluetooth passcode, select **Yes** to confirm and pair the ASUS All-in-One PC with the Bluetooth device.

Turning your ASUS All-in-One PC off

Do either of the following to shut down your ASUS All-in-One PC:

- Tap/click from the Charms bar then tap/click  > **Shut down** to do a normal shutdown.
- If your ASUS All-in-One PC is unresponsive, press and hold the power button for at least four (4) seconds until your ASUS All-in-One PC turns off.

Putting your ASUS All-in-One PC on sleep mode

Activate sleep mode on your ASUS All-in-One PC or ASUS Portable AiO using either of the following procedures:

- Press the power button once.
- Launch the Desktop mode then press <Alt> + <F4> to launch the Shut Down window. Select **Sleep** from the drop-down list then select **OK**.

Chapter 4: Recovering your system

Entering the BIOS Setup

BIOS (Basic Input and Output System) stores system hardware settings that are needed for system startup in the ASUS All-in-One PC.

In normal circumstances, the default BIOS settings apply to most conditions to ensure optimal performance. Do not change the default BIOS settings except in the following circumstances:

- An error message appears on the screen during the system bootup and requests you to run the BIOS Setup.
- You have installed a new system component that requires further BIOS settings or update.

WARNING! Inappropriate BIOS settings may result to instability or boot failure. We strongly recommend that you change the BIOS settings only with the help of a trained service personnel.

Quickly enter the BIOS

To access the BIOS:

- When your ASUS All-in-One PC is off, press the power button for at least four (4) seconds to access the BIOS directly.
- Press the power button to turn on your ASUS All-in-One PC then press <F2> or during POST.

NOTE: POST (Power-On Self-Test) is a series of software controlled diagnostic tests that run when you turn on your ASUS All-in-One PC.

Recovering your system

Resetting your PC

The **Reset your PC** option restores your PC to its factory default settings.

IMPORTANT! Back up all your data before using this option.

To reset your PC:

1. Press <**F9**> during bootup.

IMPORTANT! To go through POST, follow any of the ways described in the *Quickly enter the BIOS* section in *Chapter 3*.

2. From the screen, click **Troubleshoot**.
3. Select **Reset your PC**.
4. Click **Next**.
5. Select **Only the drive where the Windows is installed**.
6. Select **Just remove my files**.
7. Click **Reset**.

Recovering from a system image file

You can create a USB recovery drive and use this to recover your PC's settings.

Creating a USB recovery drive

WARNING! All files on your USB storage device will be permanently deleted during the process. Before you proceed, ensure that you back up all your important data.

To create a USB recovery drive:

1. Launch the Control Panel from the All Apps screen.

NOTE: For details, refer to **Launching the All Apps screen** under **Working with Windows® apps**.

2. From the Control Panel's System and Security, click **Find and fix problems**.
3. Click **Recovery > Create a recovery drive**.
4. Click **Next**.
5. Select the USB storage device where you want to copy the recovery files.
6. Click **Next**.
7. Click **Create**. Wait for a while for the process to complete.
8. When the process is completed, click **Finish**.

Removing everything and reinstalling Windows

Restoring your PC to its original factory settings can be done using the Remove everything and reinstall option in PC Settings. Refer to the steps below to use this option.

IMPORTANT! Back up all your data before using this option.

NOTE: This process may take a while to complete.

1. Launch the Charms bar.
2. Click **Settings > Change PC Settings > General**.
3. Scroll down to view the Remove everything and reinstall Windows option. Under this option, click **Get Started**.
4. Follow the onscreen instructions to complete the reinstallation and reset process.

Chapter 5: Upgrading your ASUS All-in-One PC

Installing a Random-access Memory module

Upgrade the memory capacity of your ASUS All-in-One PC by installing a RAM (random-access memory module) in the memory module compartment or DIMM door.

WARNING! Disconnect all the connected peripherals, any telephone or telecommunication lines and power connector (such as external power supply, battery pack, etc.) before removing the compartment cover.

IMPORTANT!

- Visit an authorized service center or retailer for information on RAM module upgrades for your ASUS All-in-One PC.
 - Purchase RAM modules from authorized retailers of this ASUS All-in-One PC to ensure maximum compatibility and reliability.
-

NOTE: The appearance of the RAM module may vary per model but the RAM module installation remains the same.

To install a RAM module:

1. Loosen the screw of the ASUS All-in-One PC's compartment cover.
2. Pull out the compartment cover and remove it completely from your ASUS All-in-One PC. Set aside.
3. Remove the metal cover then set aside.

4. Get the RAM module.
5. Align and insert the RAM module into the RAM module slot (A) then push it down until it clicks in place (B).

NOTES:

- Use both hands in performing this step.
 - The RAM module fits in one orientation only. If it does not fit, try reversing it.
 - Ensure that the RAM module is seated securely in place. The side notches of the RAM module should be firmly fixed in place.
-

6. Replace the metal cover.
7. Replace the compartment cover.
8. Secure the compartment cover using the screw that you removed earlier in step 1.

Appendices

Notices

Federal Communication Commission Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This device and its antenna(s) must not be co-located or operating in conjunction with any other antenna or transmitter.

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device

RF exposure warning

The equipment complies with FCC RF exposure limits set forth for an uncontrolled environment.

The equipment must not be co-located or operating in conjunction with any other antenna or transmitter.

CAUTION: Any changes or modifications not expressly approved by the guarantee of this device could void the user's authority to operate the equipment.

Canadian Department of Communications Statement

This digital apparatus does not exceed the Class B limits for radio noise emissions from digital apparatus set out in the Radio Interference Regulations of the Canadian Department of Communications.

This class B digital apparatus complies with Canadian ICES-003.

IC Radiation Exposure Statement for Canada

This equipment complies with IC radiation exposure limits set forth for an uncontrolled environment. To maintain compliance with IC RF exposure compliance requirements, please avoid direct contact to the transmitting antenna during transmitting. End users must follow the specific operating instructions for satisfying RF exposure compliance.

Operation is subject to the following two conditions:

- This device may not cause interference and
- This device must accept any interference, including interference that may cause undesired operation of the device.

Canada, Industry Canada (IC) Notices

This Class B digital apparatus complies with Canadian ICES-003 and RSS-210. Operation is subject to the following two conditions:

1) this device may not cause interference, and 2) this device must accept any interference, including interference that may cause undesired operation of the device.

Radio Frequency (RF) Exposure Information

The radiated output power of the wireless device is below the Industry Canada (IC) radio frequency exposure limits. The wireless device should be used in such a manner such that the potential for human contact during normal operation is minimized.

Canada, avis d'Industry Canada (IC)

Cet appareil numérique de classe B est conforme aux normes canadiennes ICES-003 et RSS-210.

Son fonctionnement est soumis aux deux conditions suivantes: 1) cet appareil ne doit pas causer d'interférence et 2) cet appareil doit accepter toute interférence, notamment les interférences qui peuvent affecter son fonctionnement.

Informations concernant l'exposition aux fréquences radio (RF)

La puissance de sortie émise par l'appareil de sans fil est inférieure à la limite d'exposition aux fréquences radio d'Industry Canada (IC). Utilisez l'appareil de sans fil de façon à minimiser les contacts humains lors du fonctionnement normal.

Declaration of Conformity (R&TTE directive 1999/5/EC)

The following items were completed and are considered relevant and sufficient:

Essential requirements as in [Article 3]

Protection requirements for health and safety as in [Article 3.1a]

Testing for electric safety according to [EN 60950]

Protection requirements for electromagnetic compatibility in [Article 3.1b]

Testing for electromagnetic compatibility in [EN 301 489-1] & [EN 301 489-17] & [EN 301 489-3]

Effective use of the radio spectrum as in [Article 3.2]

Radio test suites according to [EN 300 328-2]

Wireless Operation Channel for Different Domains

N. America	2.412-2.462 GHz	Ch01 through CH11
Japan	2.412-2.484 GHz	Ch01 through Ch14
Europe ETSI	2.412-2.472 GHz	Ch01 through Ch13

CE Mark Warning

This is a Class B product, in a domestic environment, this product may cause radio interference, in which case the user may be required to take adequate measures.

CE marking for devices without wireless LAN/Bluetooth

The shipped version of this device complies with the requirements of the EEC directives 2004/108/EC "Electromagnetic compatibility" and 2006/95/EC "Low voltage directive".

CE marking for devices with wireless LAN/Bluetooth

This equipment complies with the requirements of Directive 1999/5/EC of the European Parliament and Commission from 9 March, 1999 governing Radio and Telecommunications Equipment and mutual recognition of conformity.

 is for class II device.

NO DISASSEMBLY

The warranty does not apply to the products that have been disassembled by users

Lithium-Ion Battery Warning

CAUTION: Danger of explosion if battery is incorrectly replaced. Replace only with the same or equivalent type recommended by the manufacturer. Dispose of used batteries according to the manufacturer's instructions.

No Exposure to Liquids

DO NOT expose to or use near liquids, rain, or moisture. This product is not waterproof or oil-proof.

This symbol of the crossed out wheeled bin indicates that the product (electrical, electronic equipment, and mercury-containing button cell battery) should not be placed in municipal waste. Check local regulations for disposal of electronic products.

DO NOT throw the battery in municipal waste. The symbol of the crossed out wheeled bin indicates that the battery should not be placed in municipal waste.

請勿將電池當作一般垃圾丟棄。這個標誌表示電池不應視為一般垃圾丟棄。

REACH

Complying with the REACH (Registration, Evaluation, Authorization, and Restriction of Chemicals) regulatory framework, we publish the chemical substances in our products at ASUS REACH website at <http://csr.asus.com/english/REACH.htm>.

Global Environmental Regulation Compliance and Declaration

ASUS follows the green design concept to design and manufacture our products, and makes sure that each stage of the product life cycle of ASUS product is in line with global environmental regulations. In addition, ASUS disclose the relevant information based on regulation requirements.

Please refer to <http://csr.asus.com/english/Compliance.htm> for information disclosure based on regulation requirements ASUS is complied with:

Japan JIS-C-0950 Material Declarations

EU REACH SVHC

Korea RoHS

ASUS Recycling/Takeback Services

ASUS recycling and takeback programs come from our commitment to the highest standards for protecting our environment. We believe in providing solutions for you to be able to responsibly recycle our products, batteries, other components as well as the packaging materials. Please go to <http://csr.asus.com/english/Takeback.htm> for detailed recycling information in different regions.

Coating Notice

IMPORTANT! To provide electrical insulation and maintain electrical safety, a coating is applied to insulate the device except on the areas where the I/O ports are located.

Rechargeable Battery Recycling Service in North America

For US and Canada customers, you can call 1-800-822-8837 (toll-free) for recycling information of your ASUS products' rechargeable batteries.

Prevention of Hearing Loss

To prevent possible hearing damage, do not listen at high volume levels for long periods.

A pleine puissance, l'écoute prolongée du baladeur peut endommager l'oreille de l'utilisateur.

ENERGY STAR complied product

ENERGY STAR is a joint program of the U.S. Environmental Protection Agency and the U.S. Department of Energy helping us all save money and protect the environment through energy efficient products and practices.

All ASUS products with the ENERGY STAR logo comply with the ENERGY STAR standard, and the power management feature is enabled by default. The monitor and computer are automatically set to sleep after 10 and 30 minutes of user inactivity. To wake your computer, click the mouse or press any key on the keyboard.

Please visit <http://www.energy.gov/powermanagement> for detail information on power management and its benefits to the environment. In addition, please visit <http://www.energystar.gov> for detail information on the ENERGY STAR joint program.

NOTE: ENERGY STAR is NOT supported on FreeDOS and Linux-based products.
