FOR THE WAY IT'S MADE.™

KITCHENAID® PROFESSIONAL 600™ SERIES STAND MIXERS

THE POWER AND VERSATILITY OF A RELIABLE CULINARY PARTNER

The Flour Power™ Index is a usable calculation that measures mixer power, motor strength, and bowl capacity. The Index measures the maximum amount of all-purpose flour a mixer can effectively mix based on these calculations.

This mixer has a Flour Power™ Index of 14 Cups.

POWERFUL MOTOR

Crafted for commercial-style performance, the direct drive, all-steel gear transmission delivers relentless power for professional results.

COMMERCIAL-STYLE MOTOR PROTECTION

Shuts off the mixer when overload is sensed to protect the motor.

ELECTRONIC SPEED SENSOR

Monitors operation to maintain precise mixer speed.

PROFESSIONAL BOWL-LIFT DESIGN

Professional-style bowl lift raises bowl into mixing position for stable mixing.

ALL-METAL CONSTRUCTION

Rugged, durable, all-metal construction will deliver many years of reliable service.

6-QUART, STAINLESS STEEL WIDE BOWL

Polished stainless steel, wide-mouth bowl with contoured handle accommodates large quantities.

67-POINT PLANETARY MIXING ACTION

The beater spirals to 67 different touch-points within the bowl for quick, complete mixing.

10-SPEED CONTROL

Mixing speeds range from slow stir to very fast whip.

SOFT START® MIXING FEATURE

Helps minimize ingredient splatter with gentle acceleration to selected speed.

ACCESSORIES INCLUDED

Burnished PowerKnead™ Spiral Dough Hook, flat beater, and stainless steel professional wire whip help achieve a variety of culinary tasks. Dual-purpose pouring shield minimizes splatter and wide pouring chute makes adding ingredients easy.

MULTIPURPOSE ATTACHMENT HUB WITH HINGED HUB COVER

Hub powers a variety of optional attachments to provide unmatched culinary versatility and convenience. Hinged hub cover flips up for easy installation.

EXCLUSIVE SATIN PEARL FINISH

Our smooth, premium satin finish adds a subtle shimmer to any countertop.
