TOP LOAD WASHERS

Take Control of Your Laundry

Goodbye clunky dials and knobs. With the new Easy Front Panel, the controls are readily accessible in the front of the washer. As if that's not enough, the sleek modern design allows you to find the right settings in no time.

The Hottest Thing in Cold

Now using the cold cycle on your washer doesn't mean compromising on how clean your clothes are. ColdWash technology uses cold water and enhanced washing motions to penetrate deep into fabrics, giving you cold-water savings with warm-water performance.

More Free Time

Towers of towels, piles of sweatshirts, and a mountain of jeans? Go for it. The ultra large capacity (5.2 cu.ft.) washer lets you do more laundry in fewer loads. That's time well saved.

Call, Connect, Resolve

SmartDiagnosis uses self-diagnosing technology that can communicate 24/7 with LG customer service over the telephone providing you with comfort and reliability.

NFC Tag On

Easily change and customize cycles with a simple tap of a smart phone app. Can't find the cycle you need? There's an app for that. Your laundry just got a little bit smarter.

Keep it Quiet

There's no need for laundry to be noisy. Thanks to LG's LoDecibel™ Operation, chances are you'll never even notice it.
