PX840T/05

Enjoy powerful music wirelessly wherever you go

with Bluetooth

The Philips PX840T portable sound system plays music effortlessly from your favourite sources — Bluetooth, USB, CD and FM/MW radio. The built in, dynamic lighting system and 50W power output let you have the ultimate listening experience.

Benefits

Enjoy your music from different sources

- Stream music wirelessly via Bluetooth™ from your smartphone
- USB Direct for MP3 music playback
- Play MP3-CD, CD and CD-R/RW
- FM/MW (AM) stereo tuner
- Audio-in for easy portable music playback

Easy to use

- Pump up the party with dynamic light
- CD Shuffle/Repeat for personalised music enjoyment

- 20-track CD programmable

- 20 preset tuning stations

Powerful sound you can hear and feel

- 50W RMS maximum output power
- Passive radiator for better low frequency performance
- Dynamic Bass Boost for deep and dramatic sound
- Digital Sound Control for optimised music style settings

PHILIPS

Features

Stream music via Bluetooth™

Bluetooth is a short range wireless communication technology that is both robust and energy-efficient. The technology allows easy wireless connection to iPod/iPhone/iPad or other Bluetooth devices, such as smartphones, tablets or even laptops. So you can easily enjoy your favourite music, sound from video or game wirelessly on this speaker.

USB Direct for MP3 music

Play MP3-CD, CD and CD-R/RW

MP3 stands for "MPEG 1 Audio layer-7.6 cm (3)". .MP3 is a revolutionary compression technology by which large digital music files can be made up to 10 times smaller without radically degrading their audio quality. MP3 has become the standard audio compression format used on the world wide web, allowing quick and easy audio file transfer.

FM/MW (AM) stereo tuner

FM/MW (AM) stereo tuner

Light up the party

Get the party pumping with dynamic lighting to illuminate your music. Set the night alight with two cool dynamic lighting effects that shine directly from the speakers. Turn the lights on or off with the flip of a switch, without missing a beat. Light up the party however you like, from ambient chill-out lighting to exciting dance club effects, set the tone and mood at the same time!

Specifications

Please note that this is a pre-sales leaflet. The contents of this leaflet reflect the best of our knowledge per date and country mentioned above. The contents of this leaflet are subject to change without notice. Philips does not accept any liability as to the contents of this leaflet.

| Disc playback modes | fast forward/reverse next/previous album search next/previous track search repeat/shuffle/programme |
| USB playback mode | fast forward/reverse next/previous album search next/previous track search repeat/shuffle/programme |

Dynamic Bass Boost

Dynamic Bass Boost maximises your music enjoyment by emphasising the bass content of the music throughout the range of volume settings - from low to high – at the touch of a button! Bottom-end bass frequencies usually get lost when the volume is set at a low level. To counteract this, Dynamic Bass Boost can be switched on to boost bass levels, so you can enjoy consistent sound even when you turn down the volume.

Digital Sound Control

Digital Sound Control offers you a choice of pre-set Jazz, Rock, Pop and Classical controls you can use to optimise the frequency ranges for different musical styles. Each mode uses graphic equalizing technology to automatically adjust the sound balance and enhance the most important sound frequencies in your chosen music style. Ultimately, Digital Sound Control makes it easy for you get the most out of your music by precisely adjusting the sound balance to match the type of music you are playing.
