

MPN: PE090425Y

## UK 3 Pin to 2 x IEC C13 2.5m

The PE090425Y is a UK power cord splitter cable designed to convert a single UK mains connection into two IEC C13 female connectors. This 2.5-meter cable offers a convenient solution for powering two devices, such as computers, monitors, or peripherals, from a single UK wall socket. Built to MicroConnect's exacting European standards, this cable delivers reliable power distribution and eliminates the need for multiple outlets. Benefit from our 20+ years of experience in connectivity solutions, ensuring premium quality and safe power delivery for your valuable equipment. Ideal for home or office use, this splitter cable simplifies cable management and offers a practical solution where power outlets are limited.

## Specifications

|                    |                            |                          |
|--------------------|----------------------------|--------------------------|
| Features           | Cable length               | 2.5 m                    |
|                    | Cable type                 | H05VV-F                  |
|                    | Conductor material         | Copper                   |
|                    | Connector 1                | UK Power Type G          |
|                    | Connector 1 form factor    | Angled                   |
|                    | Connector 1 gender         | Male                     |
|                    | Connector 2                | 2 x C13 coupler          |
|                    | Connector 2 form factor    | Straight                 |
|                    | Connector 2 gender         | Female                   |
|                    | Core size                  | 1 mm <sup>2</sup>        |
|                    | Jacket material            | Polyvinyl chloride (PVC) |
|                    | Product colour             | Black                    |
|                    | RoHS compliance            | Yes                      |
