PHILIPS

Highlights

Surround sound effect

This patented 'reflected-speaker' design creates a surround sound effect providing a hi-fi audio experience that immerses you in concert-quality sounds

Neodymium magnets

Neodymium is the best material for producing a strong magnetic field for greater sensitivity in a voice coil, better bass response and higher overall sound quality.

13.5 mm speaker driver

Small enough for optimum wearing comfort and big enough to deliver undistorted sound, an ideal size for listening enjoyment.

4 sizes of rubber caps

Now also available in XS! - With 4 cap sizes you'll get a precise and snug fit

Flexi-Grip design

A soft, flexible part protects the cable connection from damage that otherwise would occur due to repeated bending.

24 k Gold-plated plug

You can rest assured that the precious metal gold finishing on the plug will give you a more reliable connection for better quality audio.
