PHILIPS

Highlights

Aroma twister

This smart nozzle inside the jug circulates the inflowing coffee evenly through the jug for an optimal and consistent aroma, from the first to the last cup.

Protective buffer ring

The buffer ring around the glass jug provides protection and improved stability.

Rich coffee flavor

Thanks to the concentrated water flow that is poured onto the coffee bed, optimal flavors are extracted from the coffee grounds.

Drip stop

The drip stop allows you to pour a cup of coffee before the full brewing cycle is finished.

Swing filter holder

The filter holder is opened by swinging it to the side, which makes the filling of coffee easy. The filter holder is also detachable, for easy cleaning.

Cable storage compartment

Spare cable can be stored very easily in the cable compartment in the back of the coffee maker. It enables placing the coffee maker nicely in your kitchen.

Water level indication

Fill the water tank easily and precisely with the water level indication.

Dishwasher-safe parts

The glass jug and filter holder can be easily cleaned in the dishwasher.
