## World's 1st Laser Guided Beard Trimmer

Perfect symmetry with laser-guided trimmer

Perfect your beard with our exclusive laser guidance system. Follow the red line of light to get a sharp, symmetrical trim on both sides of your face.

### Precision

- Laser guidance for a precise, symmetrical trim every time
- Trim in precise steps of 0.2mm, from 0.4mm to 7mm
- Detail trimmer for perfect edges and details

### Cutting performance

- Full metal blades are double-sharpened for faster trimming
- Lifts and guides hairs for an effortless even trim
- Cuts consistently, even through denser hair
- Skin-friendly rounded tips prevent irritation

### Battery

- 80 minutes run time after a 1-hour charge or use plugged in

### Easy to use

- LED display clearly shows your length setting
- Quickly see the status of your trimmer's battery
- 100% waterproof for easy, thorough cleaning

winner

# Highlights

## Laser guidance

Perfect your beard with our exclusive laser guidance system. Follow the red line of light to get a sharp, symmetrical trim on both sides of your face.

## Full metal blades

Our full metal stainless steel blades are extra strong and double-sharpened. That means they're made to last a very long time, and cut through even the thickest hair. As you trim, they sharpen themselves by lightly brushing against each other. So you get a precise, even cut – time after time.

## Innovative lift & trim system

Trim your stubble in one quick stroke. Our innovative lift & trim system raises each hair, then guides it toward the double-sharpened stainless steel blades. The result is an even stubble or trim in just one go.

## Advanced Li-Ion battery

Our advanced Li-Ion battery allows you to charge your beard trimmer for 1 hour and get 80 minutes of cordless use. If you need more energy while trimming, you can simply plug the trimmer into the wall. This trimmer has been designed to work both cordless and while plugged in.

## 0.2 mm precision

Style your beard with ultimate accuracy by choosing a hair length down to 0.2mm precision. Use the zoom wheel to select and lock in the length you want, from 0.4mm all the way to 7mm.

## LED Display

Turn the zoom wheel to view your chosen length setting in mm on the LED display.

## 3-level battery indicator

See whether your trimmer is well-charged or needs charging – in the blink of an eye. 3 simple bars show you the charge time remaining, as well as the charging status when your trimmer is plugged in.
