78" & 88" DUO Whiteboard
For NEC NP01TM Interactive Touch Module
The multi-media surface which nurtures creativity and collaboration

The DUO Whiteboard series, designed to perfectly complement the operation of NEC interactive projectors using the NP01TM interactive touch module, provides precise and long-lasting capabilities supporting interactive presentations, lessons and group-working results.

Interactive presentations require a surface that ideally supports readability, eye-protection and the best possible working results, be it handwritten or projected content. The DUO Whiteboard series features a durable, environmentally friendly, magnetic enameled steel surface which is the perfect solution for writing, dry erasing, displaying notes and as a projection surface especially in environments with excessive ambient light thanks to its antireflective qualities. The complete interactive solution is very quick to install as each element including the whiteboard, the projector and the laser curtain module are aligned for simple integration.

This state-of-the-art whiteboard is the ideal surface for interactive applications including learning and presenting within Educational scenarios and in the Corporate Office.

Delivering Genuine Benefits

- Easy installation – Designed to allow quick and time-saving installation of the whiteboard and the interactive touch module.

- Superb readability - Brilliant image quality thanks to minimal hot spots and low reflection of ambient light.

- Reliable operation – the whiteboard perfectly complements the NEC NP01TM interactive touch module used in all NEC interactive projectors.

- Perfect interactive working results - the DUO Whiteboard offers superior projection, writing & dry erasing capabilities for both analogue (handwritten) and digital (projected) content.

- Highest investment security - high surface resistance to chemicals, graffiti, scratches, fire and stains, supported by a lifetime surface warranty.

- Well-ordered and efficient – all your writing devices stored and available for use right where you need them.
