# Z2-3D

## Monitor Arm for 3D-Flexibility

Increase your efficiency with the **Z2-3D** dual monitor arm: It is often helpful to work with multiple screens at the same time to keep important applications parallel in view. The **Z2-3D** extends your view and thereby simplifies not only your work, but it also allows you to work more efficiently. Thanks to the gas-lift technology your monitor can be easily and smoothly rotated, swiveled or tilted in any direction. Also your ergonomic seating position is improved through ideal alignment according to your individual eye level. With four USB 3.0 ports in the foot of the **Z2-3D** you can easily connect your USB devices. Concurrently you will win a lot of space on your table.

# Z2-3D

## Monitor Arm for 3D-Flexibility

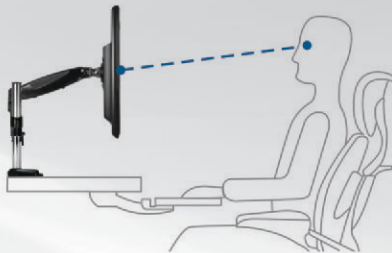

### 3D Monitor Placement

The Z2-3D monitor arm provides you a completely new sense of work at your screens. On top of the standard rotation, swivel and tilt, Z2-3D allows you to move your monitors in any direction.

### Ergonomic Seating Position

Pay attention to your health, also in the office. So the Z2-3D improves your ergonomic seating position through ideal alignment according to your individual eye level.

### Work Efficiently

Increase your efficiency with the Z2-3D dual monitor arm: It is often helpful to work with multiple screens at the same time to keep important applications parallel in view. The Z2-3D extends your view and thereby simplifies not only your work, but it also allows you to work more efficiently.

### Gas Lift Arm

Thanks to the gas-lift technology, your monitors can be easily and smoothly rotated, swiveled or tilted in any direction.

### Tidy Desk

Because of the cable management the interfering clutter is a thing of the past. The compact foot of Z2-3D let you win a lot of space on your desk.

### Powered USB 3.0 Hub

With the USB 3.0 ports in the foot of the Z2-3D you can easily connect up to four USB devices at the same time. You can easily use the ports for your mouse, USB stick or keyboard and even for charging your smartphone because of the powered hub.
