HP Elite PCs

HP ELITE PCs

HP recommends Windows 10 Pro.

ADAPTING TO MODERN WORKSTYLES

The HP Elite family offers best-in-class design, security, and collaboration, built from the ground up to inspire creativity and ignite productivity in today's business professionals. From the world's thinnest 13" business convertible¹ to the world's first built-for-business

3-in-1 device,² every member of the HP Elite family packs powerful performance and unique innovations into beautiful, revolutionary designs that you'll be proud to carry. They're durable, reliable, and ready for everyday life. Welcome to the **HP Elite family.**

1. Based on competitors as of January 4, 2017, of convertible, non-detachables having a Windows Pro OS and 6th or 7th generation U series Intel® Core™ vPro™ processors.
2. Based on HP's internal analysis as of May 11, 2016, of mobile devices delivering phablet, laptop, and desktop business productivity, preinstalled with Windows 10 Mobile, MIL-STD-810G and IP67 testing, the ability to run virtualized corporate apps on a big screen using an optional dock, and a biometric solution for security.

WE DREAM, DESIGN, AND DEVELOP

“

There is a massive shift toward mobility in the workplace, and the convergence of mobility and computing will accelerate business productivity.

”

DION WEISLER, President and Chief Executive Officer, HP Inc.

MODERN DESIGN

HP recommends Windows 10 Pro.

ICONIC ARTISTRY, CUTTING-EDGE INNOVATION, PERFECTLY BALANCED

Technology is a personal statement for our customers, and we've engineered the HP Elite family to offer exacting performance standards while also handcrafting designs that stand out from the crowd. Diamond-cut finishes, materials that look great

and perform even better, and smart innovations that make the devices fun and easy to use. Just because something is powerful doesn't mean it can't also be beautiful. The HP Elite family delivers the best of both worlds.

EXQUISITE CRAFTSMANSHIP, UNQUESTIONABLY DURABLE

Trust your investment to perform optimally and remain beautiful its entire life. To ensure they stand up to the rigors of an increasingly mobile workforce, every HP Elite PC is tested for more than 120,000 hours as part of the HP Total Test Process, and designed to pass MIL-STD-810G tests.¹

1. MIL-STD-810G testing is not intended to demonstrate fitness for U.S. Department of Defense contract requirements or for military use. Test results are not a guarantee of future performance under these test conditions. Accidental damage requires an optional HP Accidental Damage Protection Care Pack.

NEXT-LEVEL SECURITY

HP recommends Windows 10 Pro.

FUTURE-BASED SECURITY MEASURES

HP Elite products don't just look pretty; they're also super-secure, designed with features that help protect your devices, data, and identity. HP Elite PCs help reduce concerns about malware or security breaches with exclusive HP Sure Start Gen3,¹ which secures your PC at the BIOS level,

Windows 10 Pro protection for business networks and resources,² and hardware security features like fingerprint readers and smart cards. And with the HP Sure View Integrated Privacy Screen, you eliminate visual hackers from the equation and keep your confidential data secure.

COMPLETE MANAGEABILITY

TAKE THE STRESS OUT OF FLEET MANAGEMENT

HP innovation doesn't end with HP Elite devices. Our range of services allows you to purchase, own, maintain, and manage technology in new ways that work for your business, reducing financial burdens while giving you more freedom to focus on

your needs. HP Device as a Service (DaaS) simplifies deployment and management by combining innovative devices and value-added expertise into an all-inclusive, affordable, HP-managed solution.⁹ See hp.com/go/daas for more details.

HP MANAGEABILITY INTEGRATION KIT

Helps speed up image creation and management of hardware, BIOS, and security through a Microsoft plugin.¹⁰

SECURE DEVICE

HP Sure Start Gen3¹

Self-healing BIOS so you can boot up safely and run more securely

SECURE DATA

HP Sure View Integrated Privacy Screen³

Helps keep data protected from visual hacks with a tinting feature

Self-encrypting drives⁴

TCG Opal certified protection that works even when the drive is removed

HP Secure Erase⁵

Overwrites and erases to obliterate your data

HP Sure Click Secure Browsing Solution⁶

Isolates web-borne malware to prevent infection

SECURE IDENTITY

HP Multi-Factor Authenticate⁷

Combines hardened policies and passwords, including PINs and biometrics, for more secure authentication

HP WorkWise⁸

Smartphone app that automatically locks or unlocks your PC, whenever you move in or out of range

1. HP Sure Start Gen3 is available on HP Elite products equipped with 7th generation Intel Core processors.
2. Not all features are available in all editions or versions of Windows. Systems may require upgraded and/or separately purchased hardware, drivers, software, or BIOS update to take full advantage of Windows functionality. Windows 10 is automatically updated, which is always enabled. ISP fees may apply and additional requirements may apply over time for updates. See windows.com.
3. HP Sure View is available on select platforms only and requires factory configuration.
4. Self-encrypting drives are available as an optional feature.
5. HP Secure Erase is for the methods outlined in the National Institute of Standards and Technology Special Publication 800-88.
6. HP Sure Click is available for the HP EliteBook x360 G2 as a web-download from the HP Support website, support.hp.com/us-en/drivers/selfservice/hp-elitebook-x360-1030-g2/14169372, is preinstalled on select HP platforms, and supports Microsoft® Internet Explorer and Chromium™. Check <http://h20195.www2.hp.com/v2/GetDocument.aspx?docname=4AA7-0922ENW> for all compatible platforms as they become available.
7. HP Multi-Factor Authenticate requires 7th generation Intel Core processor, Intel integrated graphics, and Intel WLAN.
8. HP WorkWise smartphone app is available as a free download on the App Store and Google Play. As of September 2017, HP WorkWise will no longer support iOS or iPhone® devices.
9. HP services are governed by the applicable HP terms and conditions of service provided or indicated to customer at the time of purchase. Customer may have additional statutory rights according to applicable local laws, and such rights are not in any way affected by the HP terms and conditions of service or the HP Limited Warranty provided with your HP product.
10. HP Management Integration Kit is available as a download at hp.com/go/clientmanagement.

PREMIUM COLLABORATION

HP recommends Windows 10 Pro.

NEXT-LEVEL CONNECTING, SHARING,
AND CONFERENCING

Connecting immediately and to anywhere is the new normal in the global business world, and it no longer requires an array of options and accessories. With select HP Elite products, your speakerphone is built into the PC. Now you can

start a meeting in moments with collaboration-enabled PCs and displays that have one-touch connectivity, support for Skype® for Business,¹ amazing Audio by Bang & Olufsen, and bi-directional HP Noise Cancellation built right in.²

CONVENIENT

- Intel® Unite™
- Tri-band wireless charging stand
- 180° piano hinge
- Dual-array microphones
- Touchscreen options

COMFORTABLE

- HP wireless headsets
- Tilt, swivel, and height adjustment
- Large format 55" diagonal conferencing displays
- FHD, UHD resolution
- 360° speakers

1. Skype for Business subscription required.
2. Some features are optional and available for separate purchase.

HP UC Wireless Duo Headset

With a wireless range of up to 100 feet from your work station, the HP UC Wireless Duo Headset delivers premium stereo sound and noise-canceling features in a design that's comfortable enough to wear throughout the work day.

Skype® for Business

Skype® for Business allows users to efficiently call, connect, and collaborate with features like instant messaging, audio and video conferencing, screen sharing, and many more alike.

HP Noise Reduction Software

With HP Noise Reduction Software, you can stay in control by helping keep unwanted and distracting noise from interrupting your meeting. It automatically eliminates background noise so you can focus on what matters most.

Collaboration keys

Integrated hotkeys help you manage calls and applications such as Skype® for Business for a more collaborative conferencing experience.

PREMIUM

HP recommends Windows 10 Pro.

WHAT MAKES THEM PREMIUM

Premium PCs are purpose-built for executives and mobile professionals who demand design, performance, security, and collaboration. They deliver unique computing experiences that engage and empower so you can create, excel, and challenge convention.

1. Based on competitors as of January 4, 2017, of convertible, non-detachables having a Windows Pro OS and 6th or 7th generation U series Intel Core vPro processors.
2. Windows 10 MM14 battery life will vary depending on various factors including product model, configuration, loaded applications, features, use, wireless functionality, and power management settings. The maximum capacity of the battery will naturally decrease with time and usage. See bapco.com for additional details.
3. All modules sold separately or as an optional feature. Covers are optional and require factory configuration and cannot be combined with other Slice covers.

HP ELITE X3

THE ONE DEVICE THAT'S EVERY DEVICE

Experience the power and productivity of a PC, the versatility of a tablet, and the capabilities of a premium smartphone in the palm of your hand with the HP Elite x3, HP's first built-for-business 3-in-1 device that delivers simple and seamless access to your people, apps, and data.¹

HP ELITEBOOK X360 1030

WORLD'S THINNEST 13" BUSINESS CONVERTIBLE

The HP EliteBook x360 1030 G2 is the world's thinnest and most secure 13" business convertible.¹ With 360° of versatility across five modes, unmatched security, and up to 16 hours and 30 minutes of battery life, it's perfect for highly mobile professionals.²

HP ELITE X2 1012

DETACHED. YET NEVER MORE CONNECTED.

The HP Elite x2 1012 is a strikingly thin-and-light 2-in-1 powerhouse that's tested-tough and durable, adapts easily to any task, and is simple to manage for both the user and IT.

HP ELITE SLICE AND HP ELITE SLICE FOR MEETING ROOMS

REIMAGINE THE DESKTOP EXPERIENCE

HP Elite Slice and HP Elite Slice for Meeting Rooms are like no desktops you've ever seen. A powerful PC wrapped in a beautiful modular body. Designed for the modern workforce, each compact, cable-less module adds functionality so you can slice into something new.³

NOTEBOOKS

HP recommends Windows 10 Pro.

HP EliteBook 1040 / HP EliteBook 1030 / HP EliteBook x360 1030 / HP EliteBook 800 and 705 series

HP EliteBook PCs have a refined, modern image that will wow colleagues and clients. Dive deeper and you'll find powerful performance, the latest Intel® and AMD processors, and some of the thinnest and lightest business notebooks available with the HP Sure View integrated privacy screen and innovative BIOS protection from HP Sure Start Gen3 that helps keep you and your work safe and secure.^{1,2}

1. HP Sure View integrated privacy screen is an optional feature on select models only and must be configured at purchase.
2. HP Sure Start Gen3 is available on HP Elite products equipped with 7th generation Intel processors.
3. Full High Definition (FHD) content required to view FHD images.

ELEGANT DURABILITY

ALL-IN-ONES

**HP EliteOne 800, powered by Intel®**

Conquer your workday with the Intel®-powered HP EliteOne 800. It's all-inclusive by design and all-in-one for your convenience, with the technology you need for your traditional and non-traditional deployments, as well as convenient, flexible features like an optional touchscreen-enabled Full HD display,³ integrated cable management, and a range of stands.

BIG POWER
IN SPACE-
SAVING
DESIGNS

DESKTOPS

STYLISH EFFICIENCY

HP recommends Windows 10 Pro.

HP EliteDesk 800 series, powered by Intel® / HP EliteDesk 705 series with AMD Ryzen™ PRO

Maximize your workspace with the two smallest business-class desktop PCs in the world.¹

The HP EliteDesk 705 and 800 series are specifically engineered for the demands of large workloads and quick turnarounds. Both are configurable with integrated security solutions and security expansion options, and available as a Desktop Mini to fit to your workspace.

The HP EliteDesk 705 is also available as a Microtower.

1. Based on business class desktop PCs as of January 19, 2017, among vendors with >1 million unit annual sales having 4th, 6th, or 7th gen Intel processors or AMD Pro.

DISPLAYS

Work and collaborate in style and comfort on an HP EliteDisplay that starts with extraordinary front-of-screen presentation and goes beyond it to complete and complement your HP Elite PC. Choose a standard display with four-way comfort adjustability and expansive connectivity, a curved display that will stop colleagues and customers in their tracks, a Certified for Skype® for Business display designed for easy, efficient collaboration, or a display with an integrated wireless charging stand that charges your mobile devices on contact while you work.

From left to right: HP EliteDisplay S240n 23.8" Micro Edge Display, 27" QHD Display, HP EliteDisplay E243i 24" Monitor, HP Elite S270c 27" Curved Display.

COMMANDING
VIEWS

ELITE ACCESSORIES

Add more flexibility and capability to your HP Elite PCs with these optional Elite accessories.

HP recommends Windows 10 Pro.

HP USB-C™ Universal Dock offers universal compatibility for all of your devices. Power and charge your notebook with 60W of power to your host.

HP Elite Thunderbolt™ 3 65W Dock adds another level of convenience to your workstation.

HP Elite x3 Desk Dock sets up an office solution for your mobile device.

HP Elite x3 Lap Dock maximizes your mobile Windows experience.

HP Wireless Premium Mouse un-clutters your workspace and enhances your desktop experience.

HP Executive Notebook Cases help protect your data and device.

HP IWC Stands achieve an all-in-one footprint.

HP Conferencing Keyboard, HP UC Wired Headset, and HP UC Speaker Phone enhance your desktop collaboration experience.

HP Wireless Collaboration Keyboard lets you easily manage meetings with dedicated conferencing keys.

HP UC Wireless Mono and Duo Headsets add premium sound to your conference call.

HP USB Premium Keyboard adds elegance to your workstation with an anodized aluminum trimming and ultra-quiet scissor keys.

HP Desktop Mini Lock Box secures your PC.

1. Not all features are available in all editions or versions of Windows. Systems may require upgraded and/or separately purchased hardware, drivers, software, or BIOS update to take full advantage of Windows functionality. Windows 10 is automatically updated, which is always enabled. ISP fees may apply and additional requirements may apply over time for updates. See windows.com/.
2. Multicore is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. Performance and clock frequency will vary depending on application workload and your hardware and software configurations. Numbering is not a measurement of higher performance. 3. For storage drives, 1GB = 1 billion bytes. 1TB = 1 trillion bytes. Actual formatted capacity is less. A portion of the drive is reserved for system recovery software. 4. High Definition (HD) content required to view HD images. Full HD (FHD) content required to view FHD images. WQHD content required to view WQHD images. 5. Wireless access point and Internet service required and sold separately. Availability of public wireless access points limited. The specifications for the 802.11ac WLAN are draft specifications and are not final. If the final specifications differ from the draft specifications, it may affect the ability of the notebook to communicate with other 802.11ac WLAN devices. 6. WWAN module is optional and requires separately purchased service contract and factory configuration. Check with service provider for coverage and availability in your area. Connection speeds will vary due to location, environment, network conditions, and other factors. 4G LTE not available on all products, in all regions. For all 802.11 wireless, wireless access point and Internet service are required and are not included. Availability of public wireless access points limited. The specifications for the 802.11ac WLAN are draft specifications and are not final. If the final specifications differ from the draft specifications, it may affect the ability of the notebook to communicate with other 802.11ac WLAN devices. 7. GPS module not available if WWAN is selected. 8. Miracast is a wireless technology your PC can use to project your screen to TVs, projectors, and streaming media players that also support Miracast. You can use Miracast to share what you're doing on your PC and present a slide show. For more information, see windows.microsoft.com/en-us/windows-8/project-wireless-screen-miracast. 9. Internet access required. 10. Sold separately or as an optional feature. 11. HP Client Security Gen3 requires Windows and 7th generation Intel® processors. 12. Windows 10 MM14 battery life will vary depending on various factors including product model, configuration, loaded applications, features, use, wireless functionality, and power management settings. The maximum capacity of the battery will naturally decrease with time and usage. See bapco.com for additional details. 13. For all 802.11 wireless, wireless access point and Internet service are required and are not included. Availability of public wireless access points limited. The specifications for the 802.11ac WLAN are draft specifications and are not final. If the final specifications differ from the draft specifications, it may affect the ability of the notebook to communicate with other 802.11ac WLAN devices. 14. WWAN requires separately purchased service contract. Check with service provider for coverage and availability in your area. Connection speeds will vary due to location, environment, network conditions, and other factors. 4G LTE not available on all products, and in all regions. 15. Fingerprint reader software for update Windows 10 Mobile required and planned in a future release. 16. Actual battery times will vary depending on the network conditions, settings, configuration, individual usage pattern, and other conditions. Use of wireless and backlit will significantly decrease battery run time. Maximum capacity will naturally decrease with time and usage. Tested by HP using 720p (1280 x 720), video media file, single SIM, 200 nits brightness, airplane mode on, volume level at 50 percent with wired headset inserted. Actual battery life will vary depending on configuration and maximum capacity will naturally decrease with time and usage.

1. Not all features are available in all editions or versions of Windows. Systems may require upgraded and/or separately purchased hardware, drivers, software, or BIOS update to take full advantage of Windows functionality. Windows 10 is automatically updated, which is always enabled. ISP fees may apply and additional requirements may apply over time for updates. See windows.com. 2. This system is preinstalled with Windows 7 Professional software and also comes with a license and media for Windows 10 Pro software. You may only use one version of the Windows software at a time. Switching between versions will require you to uninstall one version and install the other version. You must back up all data (files, photos, etc.) before uninstalling and installing operating systems to avoid loss of your data. 3. Multicore is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. Performance and clock frequency will vary depending on application workload and your hardware and software configurations. Intel's numbering is not a measurement of higher performance. 4. For storage drives, 1GB = 1 billion bytes. Actual formatted capacity is less. Up to 30GB (for Windows 7 and 10) is reserved for system recovery software. 5. High-definition (HD) content is required to view HD images. Full HD (FHD) content required to view FHD images. 6. Mobile Broadband is an optional feature and requires factory configuration. Use requires separately purchased service contract. Check with service provider for coverage and availability in your area. Connection speeds will vary due to location, environment, network conditions, and other factors. 4G LTE not available on all products, and in all regions. 7. Wireless requires wireless access point and Internet service. Availability of public wireless access points limited. 8. This product ships with TPM 1.2 with option to upgrade to TPM 2.0. Upgrade utility is expected to be available by the end of 2015 via HP Customer Support. 9. Windows 10/MM14 battery life will vary depending on various factors including product model, configuration, loaded applications, features, use, wireless functionality, and power management settings. The maximum capacity of the battery will naturally decrease with time and usage. See bapco.com for additional details. 10. NFC is optional and requires factory configuration. 11. This product if configured with Windows 7 or Windows 7 downgrade operating system ships with TPM 1.2 with option to upgrade to TPM 2.0. Upgrade utility is expected to be available second half of 2016 via HP Customer Support.

1. Not all features are available in all editions or versions of Windows. Systems may require upgraded and/or separately purchased hardware, drivers, software, or BIOS update to take full advantage of Windows functionality. Windows 10 is automatically updated, which is always enabled. ISP fees may apply and additional requirements may apply over time for updates. See windows.com. 2. Multicore is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. Performance and clock frequency will vary depending on application workload and your hardware and software configurations. Intel's numbering is not a measurement of higher performance. 3. For systems configured with more than 3GB of memory and a 32-bit operating system, all memory may not be available due to system resource requirements. Addressing memory above 4GB requires a 64-bit operating system. Memory modules support data transfer rates up to 2133MT/s; actual data rate is determined by the system's configured processor. See processor specifications for supported memory data rate. 4. For hard drives and solid state drives, 1GB = 1 billion bytes. 1TB = 1 trillion bytes. Actual formatted capacity is less. Up to 36GB (for Windows 10) of system disk is reserved for the system recovery software. 5. Optical drives are optional or add-on features. Duplication of copyrighted material is strictly prohibited. Actual speeds may vary. Double layer media compatibility will widely vary with some home DVD players and DVD-ROM drives. Note that DVD-RAM cannot read or write to 2.6GB single-sided/5.2GB double-sided version 1.0 media. 6. WIDI not supported on Intel Unite 3.0. 7. Wireless cards are optional or add-on features and requires separately purchased wireless access point and Internet service. Availability of public wireless access points limited. The specifications for the 802.11ac WLAN are draft specifications and are not final. If the final specifications differ from the draft specifications, it may affect the ability of the notebook to communicate with other 802.11ac WLAN devices. 8. Available only on business PCs with HP BIOS. 9. May require a manual recovery step if all copies of BIOS are compromised or deleted. 10. All power supplies may not be available in every region.

1. Not all features are available in all editions or versions of Windows. Systems may require upgraded and/or separately purchased hardware, drivers, software, or BIOS update to take full advantage of Windows functionality. Windows 10 is automatically updated, which is always enabled. ISP fees may apply and additional requirements may apply over time for updates. See windows.com. 2. This system is preinstalled with Windows 7 Professional software and also comes with a license and media for Windows 10 Pro software. You may only use one version of the Windows software at a time. Switching between versions will require you to uninstall one version and install the other version. You must back up all data (files, photos, etc.) before uninstalling and installing operating systems to avoid loss of your data. 3. Multicore is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. Performance and clock frequency will vary depending on application workload and your hardware and software configurations. Intel's numbering is not a measurement of higher performance. 4. For storage drives, 1GB = 1 billion bytes. 1TB = 1 trillion bytes. Actual formatted capacity is less. Up to 16GB (for Windows 7) and up to 36GB (for Windows 8.1 and 10) of system disk is reserved for system recovery software. 5. High-definition (HD) content required to view HD images. 6. HDMI cable sold separately or as an optional feature. Supports HDMI 2.0a features. 7. This product ships with TPM 1.2 with option to upgrade to TPM 2.0. Upgrade utility is expected to be available by the end of 2015 via HP Customer Support. 8. HP BIOSphere with Sure Start available only on business PCs with HP BIOS. 9. EPEAT registered where applicable. EPEAT registration varies by country. See epeat.net for registration status by country.

1. Not all features are available in all editions or versions of Windows. Systems may require upgraded and/or separately purchased hardware, drivers, software, or BIOS update to take full advantage of Windows functionality. Windows 10 is automatically updated, which is always enabled. ISP fees may apply and additional requirements may apply over time for updates. See windows.com. 2. This system is preinstalled with Windows 7 Professional software and also comes with a license and media for Windows 10 Pro software. You may only use one version of the Windows software at a time. Switching between versions will require you to uninstall one version and install the other version. You must back up all data (files, photos, etc.) before uninstalling and installing operating systems to avoid loss of your data. 3. This system requires a 64-bit operating system and 64-bit software products to take advantage of the 64-bit processing capabilities of AMD technology. Multicore processing available with AMD technology is designed to improve performance of this system. Given the wide range of software applications available, performance of a system including a 64-bit operating system will vary. AMD's numbering is not a measurement of clock speed. 4. Graphics chipset uses part of the total system memory (RAM) for graphics performance. System memory dedicated to graphics performance is not available for other use by other programs. 5. For hard drives and solid-state drives, 1GB = 1 billion bytes. 1TB = 1 trillion bytes. Actual formatted capacity is less. Up to 16GB (for Windows 7) and up to 30GB (for Windows 8 and 10) is reserved for system recovery software. 6. Duplication of copyrighted material is strictly prohibited. Actual speeds may vary. Double-layer media compatibility will widely vary with some home DVD players and DVD-ROM drives. Note that DVD-RAM cannot read or write to 2.6GB single-sided/5.2GB double-sided version 1.0 media. 7. With Blu-ray drive XL, certain disc, digital connection, compatibility, and performance issues may arise, and do not constitute defects in the product. Flawless playback on all systems is not guaranteed. In order for some Blu-ray titles to play, they may require an HDCP path and HDCP display. HD-DVD movies cannot be played on this BDXL drive. 8. Sold separately or as an optional feature. 9. This product ships with TPM 1.2 with option to upgrade to TPM 2.0. Upgrade utility is expected to be available by the end of 2015 via HP Customer Support. 10. EPEAT registered where applicable. EPEAT registration varies by country. See epeat.net for registration status by country. 11. High-definition (HD) content required to view HD images. 12. HP BIOS Protection may require a manual recovery step if all copies of BIOS are compromised or deleted.
