## Quadpacer and Smartimer

The Quadpacer interval timer indicates when it's time to move to another quadrant of the mouth, while the Smartimer helps you reach the dentist recommended brushing time of two minutes.

## Deep Clean mode

Our all-new Deep Clean mode delivers an exceptional clean in hard-to-reach places. The unique motion of the brush head in this mode

plus an extended three-minute brushing time makes it the ideal choice when you want to pay extra attention to trouble spots.

## Removes up to 10x more plaque

Removes up to 10 times more plaque from hard to reach places than a manual toothbrush with AdaptiveClean brush head.

## AdaptiveClean brush head

Our AdaptiveClean brush head is the only electric toothbrush head that can follow the unique shape of your teeth and gums. With soft flexible sides made of rubber, this brush head can follow every curve. It offers up to 4x more surface contact and up to 10x more plaque removal along the gum line and between teeth. As the brush tracks along the gum line, it absorbs any excessive brushing pressure you might apply so you can be gentle on gums however you brush.
