MEDION® ERAZER® X77 Design High-End-Gaming PC

Most powerful performance for gaming at the highest level

The X77 has the full package to satisfy the heart's desire of any gamer. Consummate high-end technology in a racy and modern design. The different light modes add the final flourish to the ultimate gamer look.

Welcome to (virtual) reality!

One of the biggest digital turning points of the upcoming years is close at hand: VR headsets will change the way we watch movies and play games in a ground-breaking, revolutionary way. With NVIDIA® GeForce graphics cards of the GTX 970 series and above, you are perfectly prepared: They feature massive performance reserves to handle the high hardware demands of VR.

eSATA Xpress port

Using an eSATA Xpress port, you can transfer data at extremely high speeds. Simply connect any SATA hard drive (without external chassis), for example at LAN parties or e-sports tournaments, and synchronise all data within seconds.

Overclocking

Overclocking makes it possible to get the most out of your processor. You can use the full power of your system and enjoy maximum performance.

Illuminated Housing

- Various colours selectable: (blue, red, green, white, yellow, violette, turquoise)
- 3 different modes (permanent luminous, pulsating, off)

MEDION® ERAZER® X77 Design High-End-Gaming PC

Most powerful performance for gaming at the highest level

Up to Intel® Core™ i7-K processor

GIGABYTE™ GA-Z170X Gaming 7 Mainboard

High-End NVIDIA® GeForce® or AMD Radeon™ gaming graphics

Up to 6.000 GB HDD

Optional 512 GB SSD (M.2 2280) SSD

Up to 32 GB DDR4 RAM

Optional Water-cooling system

A water-cooling system is the most efficient and silent way to keep your PC cool. It also allows further overclocking of your processor to get the maximum performance from your PC.

Up to Blu-ray/multi-standard-DVD-/CD burner with Blu-ray-Disc, DVD-RAM, and Dual Layer support

Optional Fast wireless LAN IEEE 802.11 ac standard technology with integrated Bluetooth 4.0 function

Killer™ Ethernet E2400

Netzwerk Controller Gigabit LAN
(10/100/1000 Mbit/s)

Overclocking-Button

Maximum performance without any risks to your system – simply overclock the processor with a click on a button and gain an extra kick for games and applications.
