Refrigerated
Cabinets

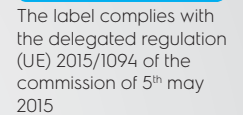

Electrolux

Electrolux

A tall, silver, stainless steel refrigerator with a digital display on the upper door showing the number 6 and the Electrolux logo. The refrigerator has a modern, minimalist design with a vertical seam down the center. It is supported by four small, cylindrical feet.

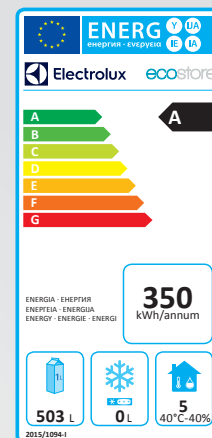

- ▶ **Highly efficient components**, up to 90mm thick **cyclopentane insulation** and removable “balloon” **gasket with triple insulation area**
- ▶ **Frost Watch Control⁴** intelligent defrost **saves energy** by defrosting only when necessary
- ▶ **R290 natural refrigerant gas reduces energy consumption** and extends the life of the compressor

- ▶ **Optiflow:** the intelligent air circulation system which adapts to your load for the **best cooling results**
- ▶ **Removable** air conveyors with innovative design provide **excellent** and **fast air distribution**
- ▶ **Fast temperature recovery** and **humidity control** guarantee the **highest quality** and the **best food preservation**

ecostore^{HP} Premium:

the next generation of advanced digital electronics

The label complies with the delegated regulation (UE) 2015/1094 of the commission of 5th may 2015

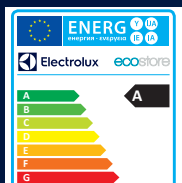

Capacity

- **50 liters more** available space. **Best-in-Class**
Unbeatable storage capacity in a compact footprint
- **Maximum recovery of internal space**, thanks to **hidden evaporator** and new component layout
- **44 grid level positions** for **increased loading capacity**

Cleanability

- **Water-safe design** and **rounded corners** for fast and **easy cleaning** operations
- **Internal components** (air conveyors, runners, supports and grids) are **fully removable without tools**
- Easily **removable** "balloon" profiled magnetic **door gasket** for **maximum hygiene**

- ▶ **80% total savings**
Electrolux **ecoStore Class A** cabinets use up to 80% less energy* than standard cabinets

The label complies with the delegated regulation (UE) 2015/1094 of the commission of 5th may 2015

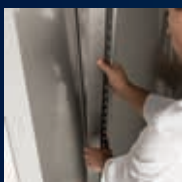

- ▶ **Wire-frame condenser**
Clean-free to guarantee high performances at all times

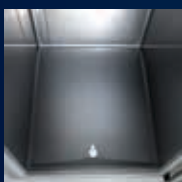

- ▶ **LCD Touch screen**
Innovative touch display for easy and clear operation

- ▶ **Optiflow**
Vertical and horizontal air circulation for **optimal temperature uniformity**

- ▶ **Innovative air conveyors**
provide excellent and **fast air distribution** and are **fully removable** to facilitate cleaning

- **Rounded corners and removable stainless steel runners**
and **supports** facilitate cleaning of internal chamber

- **Maximum stability and flexibility.**
Can be mounted on stainless steel feet, swivelling wheels, concrete plinth or marine feet

High efficiency components

Low energy compressors,
high surface evaporator
and high efficiency fans

Hidden evaporator

For maximum internal capacity

Internal LED light

The lowest energy consumption
(internal neon light on glass
door models)

IPX5 water protection

Full frontal water-proof design

90mm insulated walls
and the improved gasket design
assure **low energy consumption**

Removable

wide "balloon" profiled **gasket**,
with triple insulation area,
provides an **excellent seal** thus
reducing heat dispersion

Included feature on selected models

ecostore^{HP} Touch

1 full door

ecostore^{HP} Premium

1 full door

Excellence with the environment in mind

- All our factories are ISO 14001-certified
- All our solutions are designed for low consumption of water, energy, detergents and harmful emissions
- In recent years over 70% of our product features have been updated with the environmental needs of our customers in mind
- Our technology is ROHS and REACH compliant and over 95% recyclable
- Our products are 100% quality tested by experts
