

Philips MiniVac Handheld vacuum cleaner

10.8V battery (Lithium)
Bagless Cyclonic

Bagless Cyclonic Crevice and brush tool Eco

FC6148/01

# Greener every day

Save up to 70% energy with efficient charging\*

The Philips MiniVac EnergyCare 10.8 V vacuum cleaner has lightweight and powerful, long-lasting Lithium-lon battery technology. The efficient charging system stops using power when the batteries full, so no energy is wasted.

#### High power guaranteed

• Longer-lasting lightweight Lithium-lon batteries

#### **Superior cleaning results**

· Aerodynamic nozzle design for a better dust pick-up

#### **Optimal filtration**

• 2-stage bagless cyclonic airflow for optimal filtration

#### Save energy, not power

· Charging system switches off when batteries are full

#### Easily cleans delicate surfaces and narrow spaces

• Charging stand with brush tool and crevice tool

## Highlights

### Longer-lasting lightweight Lithium-lon batteries

The powerful Lithium-Ion (Li-Ion) batteries of the Philips Mini Vac have longer-lasting power versus standard Nickel-Cadmium (NiCd) batteries. Li-Ion batteries are also very lightweight, giving you a more enjoyable cleaning experience.

#### **Brush tool and crevice tool**

The charging stand of the MiniVac holds both a brush tool and a crevice tool. The brush tool makes sure you don't damage delicate surfaces when cleaning, while the crevice tool gives you access to hard to reach pleaces.

#### System switches off when full

The efficient charging system automatically shuts off when the batteries are fully charged.

Therefore it stops using power and it saves energy. Other charging system normally keep charging even when batteries are full and therefore waste energy.

#### 2-stage bagless cyclonic

The bagless cyclonic airflow keeps the dirt inside rotating to ensure optimal, high suction power and lasting cleaning performance. Its 2-stage filtration system ensures that, once inside, the dirt cannot escape. The first filter blocks most dirt, while the second filter traps the finer dust particles.

#### Aerodynamic nozzle design

The aerodynamic nozzle design of the Philips MiniVac is created to ensure an optimum dust pick-up of even the most fine dust particles. The ergonomic shape of the nozzle helps you to clean even the most hard-to-reach areas.

#### Comfortable grip

The Philips Mini Vac has a looped handle that ensures optimum grip. You can grab the Mini Vac in any way you like. The soft rubber coating feels gentle and gives the firm grip you need.

#### One-step click-ff nozzle

The Philips MiniVac vacuum cleaner is easy and quick to empty and hygienic to clean. The Philips MiniVac has a nozzle that easily clicks off in just one step, so you can empty the Mini Vac without touching the dirt.

## Specifications

#### Design

- · Color: Greige and green
- Design features: Translucent dust chamber

#### **Filtration**

- Dust capacity: 0.5 L
- Filter system: 2-stage cyclonic action

#### **Nozzles and accessories**

• Other accessories: Charging base

#### **Performance**

- Airflow (max): 950 I/min
- Battery type: Li-Ion
- Battery voltage: 10.8 V
- Charging time: 8 hour(s)
- Input power (max): 100 W

- Noise level (Lc IEC): 81 dB
- Runtime: 9 minute(s)
- Suction power (max): 22 W
- Vacuum (max): 4.3 kPa

#### **Usability**

Special features: Charging indication, Soft touch handle

#### Weight and dimensions

- Dimensions of A-box (LxWxH): 508 x 335 x 490 mm
- Appliances per A-box: 6
- Dimensions of packaging (LxWxH):  $460 \times 160 \times 160 \text{ mm}$
- Weight of product: 0.8 kg
