

Video Wall Display

- 55"
- Direct LED Backlight
- Full HD
- 500cd/m²

55BDL1005X/00

Go big

Versatile videowall display.

Command attention with an X-Line professional videowall display. Crisp contrast and slim bezels enable clear, distraction-free imaging. Whether you're running an airport or hosting a conference.

Benefits

[Brilliant images. Endless possibilities.](#)

- Full HD monitors. Brilliant images. Clear contrast
- IPS panel: rich color consistency from every angle
- Extra-narrow (1.8 mm) bezels. For distraction-free images

[Effortless setup. Total control.](#)

- Add Android processing power with an optional CRD50 module
- CMND: Drag-and-drop system management
- CMND & Control. Operate, update, maintain

- CMND & Create. Develop and launch your own content

[Powerful system solution](#)

- Tiling mode. Create tiled 4K videowalls of any size
- OPS slot. Embed a full-power PC. No cabling required
- Energy-saving automatic backlight control
- FailOver. Ensure your display never goes blank

Features

Tiling mode

Connect two or more Philips professional displays to create a tiled videowall—without the need for external devices. A single player takes care of content, whether you have four screens or 40. 4K content is fully supported, and if

you're showing that content on four screens you get the best possible dot-by-dot resolution.

PHILIPS

Optional CRD50 module

Embed an Android System-on-Chip (SoC) in your Philips Professional Display. The optional CRD50 module is an OPS device that enables Android processing power without the need for cables. Simply slide into the OPS slot, which contains all the connections needed to run the module (including power supply).

CMND

Take control of your Philips Professional Display network. CMND lets you manage, update, maintain, and play via one easy-to-use interface. From installation to daily operation.

CMND & Control

Run your display network over a local (LAN) connection. CMND & Control allows you to perform vital functions like controlling inputs and monitoring display status. Whether you're in charge of one screen or 100.

CMND & Create

Take control of your content with CMND & Create. A drag-and-drop interface makes it simple to publish your own content-whether it's a daily specials board or branded corporate information. Preloaded templates and integrated widgets ensure your stills, text, and video will be up and running in no time.

OPS slot

Integrate a low-power PC or Android-powered CRD50 module directly into your Philips Professional Display. The OPS slot contains all the connections you need to run your slot-in solution, including a power supply.
