

Coreline tempo small

BVP110 LED42/NW S

LED module 4200 lm - Neutral white - Symmetrical

CoreLine tempo small is a highly efficient range of luminaires designed for 1:1 retrofit replacement of conventional technology, while retaining the same electrical installation and poles. It offers lower power consumption and requires less investment than conventional installations. A limited range of options makes it easy to find the best lux-for-lux replacement. The easy-to-install CoreLie tempo small offers a system flux that covers many different application areas and it comes with both high-performance asymmetrical and symmetrical optics.
