

Release Notes – July 6, 2016

OneLINK HDMI Version 1.0.1

Affected firmware

Component	Version
System	1.0.1

Additions and Enhancements

- The system has been updated to work with the new RoboSHOT 20 UHD camera. This update allows the main OneLINK unit to connect directly to the camera, without using an EZCamera Interface Module (EZIM) at the camera end.
- Configuration data can now be exported and imported. This includes all data other than network and security settings. Currently, this feature will only work when importing to the same firmware version as the exported file.

Known Issues

At this time there are no known issues with this release.

Backward Compatibility

No backward compatibility issues have been found in testing.

Browser Support

Unless otherwise noted, Vaddio products are tested for compatibility with the current versions of these browsers.

Vaddio OneLINK HDMI

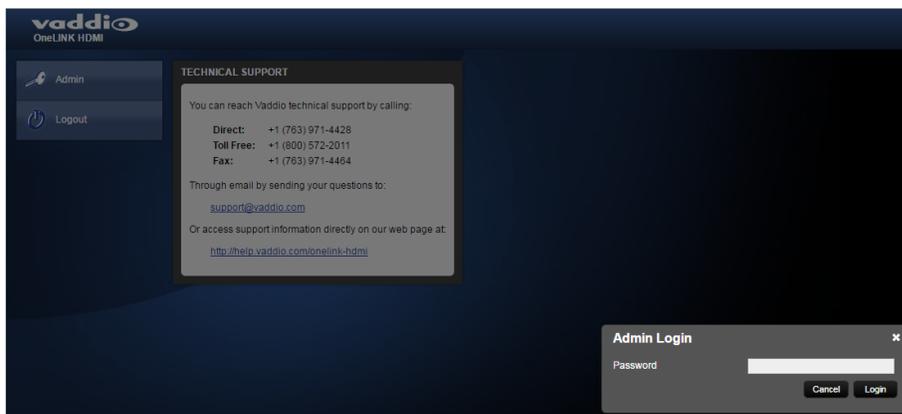

Firmware Update Instructions For Version 1.0.1

Enter in the IP address for the OneLINK into a browser:

*You can get the IP address by powering the OneLINK and reading the LCD screen.

Screen Shot: Admin Log-in

By selecting the Admin Menu Bar, the Admin Login password pop-up window will appear and await the entry of the password. By accessing the Admin menus, 10 more menu keys appear on the left side of the screen.

Default:
Admin Account
Password is:
password

Screen Shot: Admin Menu - System Menu

The System menu is where the System Info is displayed and Firmware Updates are performed. There will be firmware updates and upgrades over the life of the OneLINK HDMI. The file for the firmware update is chosen in this menu as well as beginning the update.

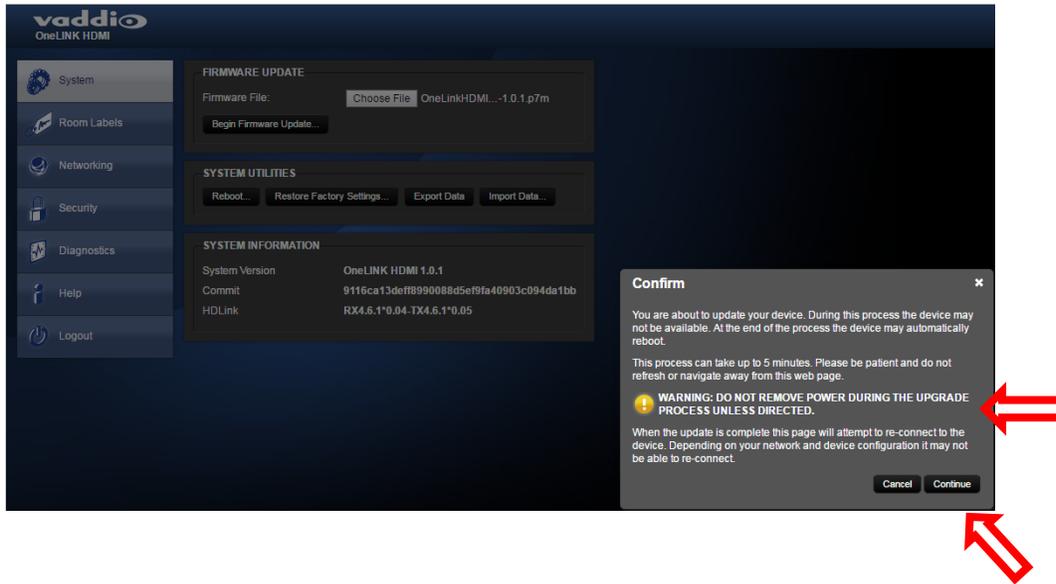

You can find the file located on the Vaddio website here: http://support.vaddio.com/resources#ani_cat_3 (scroll down to “Software Updates”) File name: “OneLINK HDMI Firmware Update V1.0.1”

A remote system Reboot and Restore to Factory Presets is also available on this page.

Screen Shot: Admin Menu - Update Confirmation

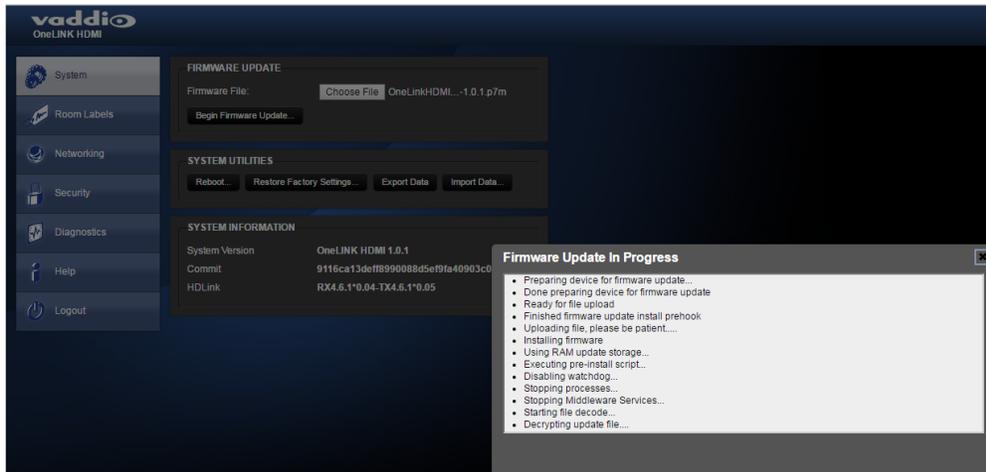

After clicking on “Begin Firmware Update...” a confirmation pop-up and warning will be displayed. Please contact Vaddio Tech support for assistance with updates. Please read and completely understand the pop-up warnings, as it is easy to lose patience waiting for updates. Click on continue to start the update.

Screen Shot: Admin Menu - Update in Progress

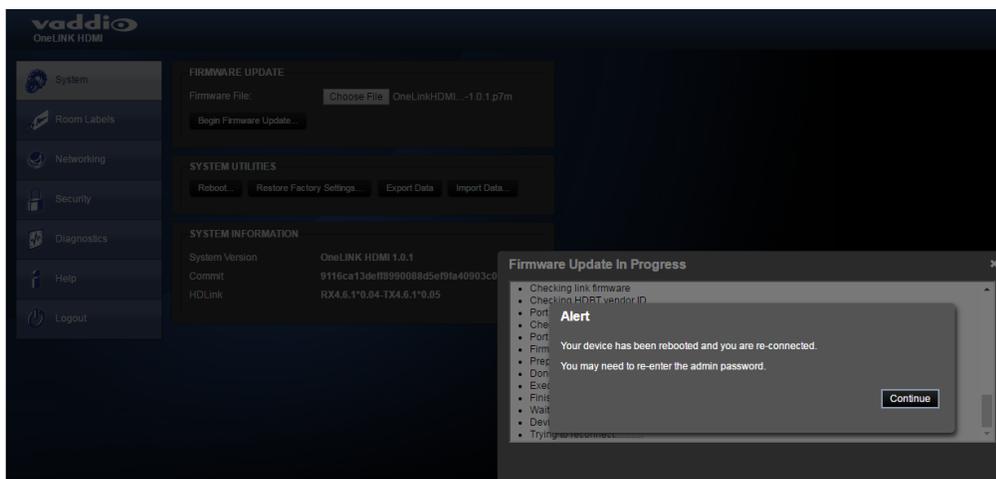

After the firmware load has been started, a pop-up screen will advise patience and notify, in terms of a percentage completed, the progress of the firmware update load.

**Again, please don't interrupt the firmware load.

Upload Successful:

*Once firmware is uploaded successfully you should get an "Alert" message and the system will automatically reboot and you will be taken back to the login page to begin using your device.

PLEASE NOTE:

**If you have any questions call Tech Support at Vaddio. 763.971.4428
or 1-800-572-2011.**
