Wireless N300 Access Point DAP-2020

Wireless N300 provides
fast and stable Wi-Fi

Multiple modes for flexible
network management

Total security with advanced
data encryption protocols

D-Link®

D-Link®

MINIMUM REQUIREMENT
Devices supporting:
• 802.11b/g/n
• Internet Explorer 8 or later, Firefox 20.0 or later,
Safari 4 or later, Google Chrome 20.0 or later

For Internet Access:
• Cable or DSL modem
• Wireless router
• Subscription with an Internet Service Provider (ISP)

DIMENSIONS
144mm x 109mm x 40mm
Weight: 212g

CONNECTIONS
10/100 Mbps LAN port x 1
Wireless 802.11n 2.4 GHz access point
Wireless 802.11g 2.4 GHz access point

SECURITY
Enhanced security WPA2-PSK
Includes Advanced Encryption Standard (AES)

FUNCTIONALITY
Supports Wireless AP, Range Extender, Wireless
Client, Bridge, Bridge with AP, WISP Client Router,
and WISP Repeater modes
Supports Wi-Fi Protected Setup (PIN/PBC)

PACKAGE CONTENTS
Wireless N Range Extender
Ethernet cable - CAT5
Power adapter 5V DC 1A
Mounting kit
Quick installation guide
Warranty documentation

WARRANTY
D-Link 2 year warranty
(Information enclosed)

(DE) Dieses Produkt nutzt das 5.15 - 5.35 GHz Frequenzband. Gemäß den EU
Regulation ist die Nutzung daher auf die Innenbereiche von Gebäuden beschränkt.
(FR) Ce produit utilise la bande 5.15 - 5.35 GHz et est donc limitée à une
utilisation intérieure par la réglementation européenne EU.
(ES) Este producto utiliza la banda de frecuencia 5.15 - 5.35 GHz, cuyo uso está
restringido a espacios interiores, según las regulaciones de la UE.
(IT) Questo prodotto utilizza la frequenza 5.15 - 5.35 GHz e il suo utilizzo è quindi
limitato all'uso in spazi interni, secondo la regolamentazione UE.
(NL) Dit product maakt gebruik van de 5.15 - 5.35 GHz band en is daaron-
derop beperkt tot gebruik binnenhuisruimte volgens EU-regelgeving.
(PL) Urządzenie wykorzystuje pasmo częstotliwości 5.15 - 5.35 GHz i zgodnie z
regulacjami UE jest przeznaczona do użytku wyłącznie wewnątrz pomieszczeń.
(PT) Este produto utiliza a banda de frequência 5.15 - 5.35 GHz e a sua utilização está
restrita a espaços interiores, segundo as regulações da UE.
(UK) This product uses the 5.15 - 5.35 GHz frequency band and is, therefore,
restricted to indoor use only.
(XK) Ovo je uređaj koji koristi frekvencijski opseg od 5.15 do 5.35 GHz i namijenjen je isključivo
za upotrebu u zatvorenom prostoru u skladu sa evropskim propisima.
(ZK) Toto je produkt, ktorý využíva frekvenciu pásma 5.15 - 5.35 GHz a podľa podmienok
platných v EÚ má byť použitý výhradne vo vnútri budov.
Please refer to the Warranty
Guide section for full
details on restrictions.

*Maximum wireless signal rate derived from IEEE Standard 802.11g and 802.11n specifications. Actual data
throughput will vary. Network conditions and environmental factors, including volume of network traffic, building
materials and construction, and network overhead, lower actual data throughput rate. Environmental factors
will adversely affect wireless signal range. Wireless range and speed rates are D-Link RELATIVE performance
measures based on the wireless range and speed rates of a standard Wireless G product from D-Link.
Maximum throughput based on D-Link 802.11n devices.

All references to speed are for comparison purposes only. Product specifications, size and shape are subject to
change without notice, and actual product appearance may differ from that depicted herein. See inside package
for warranty details.

What this product does
The DAP-2020 allows you to create an instant Wi-Fi network for your computers
and wireless devices. Wireless N300 provides fast Wi-Fi connectivity, file transfer and
smooth video and voice calls. With multiple operational modes, the DAP-2020 can
adapt to your expanding network as your business grows.

Multiple Modes for Versatile Connectivity
• Access Point Mode - Add Wi-Fi to your existing wired network by simply
connecting the Wireless N Access Point to your router.

• Repeater Mode - Extend the range of your existing Wi-Fi network to hard-to-
reach corners of your office.

• Bridge Mode - Create a link between two separate Wi-Fi networks.

• Bridge with Access Point Mode - Conveniently combine Access Point and
Bridge mode for more range and a unified network.

• Wireless Client Mode - Add wireless connectivity to devices such as desktop
computers, network cameras, storage and printers.

Type D
