

moto maxx

let's get started

At a glance

Your new Moto Maxx has it all—a big, bright, ultra high-definition display, blazing speed and performance, and a high-capacity long lasting battery. Use the included Moto Turbo Charger for a lightning fast recharge.

Caution: Before using your phone, please read the safety, regulatory, and legal information provided with your product.

Note: Your phone may look a little different.

Put in the SIM

Put the nano SIM in and power on.

1 Put in the nano SIM card.
Pull out the volume keys/SIM tray with your fingernail. Put the nano SIM card into the tray. Push the tray back into your phone.

2 Power on.
Press & hold Power until the screen lights up.

3 Charge up, when you need to.

Sign in

If you use Gmail™, you already have a Google™ account. If not, you can create an account during setup. Signing into your Google account lets you use Google apps and see your contacts, appointments, photos, and more.

Just select your language and follow the screen prompts to get started.

Got Google?

Do you have a Google Account?
If you use Gmail or Google Apps, answer Yes.

Yes

No

Contacts, appointments, photos, & more—sign in to see it all.

Or, touch here to create a new Google account.

Motorola Migrate

Copying your personal data from your old phone to your new phone with Motorola Migrate is easy.

- **From Android™:** On your old phone, download the Motorola Migrate app from Google Play™. Then on your new phone, touch Apps → **Motorola Migrate** → **Android** to get started.
- **From iPhone:** On your new phone, touch Apps → **Motorola Migrate** → **iPhone** to get started.

Migrate your stuff

Copy your stuff from your old phone to this one in just a few minutes.

Depending on your old phone, you can transfer photos, videos, music, call history, messages, contacts and more.

Select your old phone type from the list below, then press Start:

Android
Photos, videos, messages and more

Want to transfer from this phone instead?

Exit Start

Tip: If you don't copy your content right after setting up your phone, you can always do it later.

Select your old phone.

Home screen & settings

The home screen is what you see when you first turn on your phone. From here, you can explore apps and more.

- **Add shortcuts:** Touch Apps, touch and hold an app, then drag it to your home screen.
- **Add widgets:** To put widgets like a clock, calendar, and more on your home screen, touch and hold an empty spot on the home screen.
- **Customize:** To change Wi-Fi, brightness, and more, flick the status bar down and touch Touch for more settings.

Tip: To get more apps, touch **Play Store**.

Flick down to see notifications & settings.

Search by typing, or touch for a voice search.

Touch & hold an empty spot to add widgets or change wallpaper.

Shortcut
Quick access to an app.

Favorites
Touch Apps to see all your apps.

Help & more

Get answers, updates, and info:

- **Help is here:** Touch Apps → **Help** for walk-through tutorials, how-to's, FAQs, videos, and more, right on your phone.
- **Everything Maxx:** Get PC software, user guides, and more at www.motorola.com/mymotomaxx.
- **Accessories:** Get accessories for your phone at www.motorola.com/mobility.
- **Get apps:** Touch Apps → **Play Store** to buy and download apps.

SAR This product meets the applicable national or international RF exposure guidance (SAR guideline) when used normally against your head or, when worn or carried, at a distance of 1.5 cm from the body. The SAR guideline includes a considerable safety margin designed to assure the safety of all persons, regardless of age and health.

Discover your Moto Maxx

Your Moto Maxx knows whether you're in the car, in a meeting, or at home, and adapts to you. Moto Maxx responds to your voice and hand gestures, and shows you important info when the display is off.

Tip: To adjust these features any time, touch Apps  →  **Moto**.

Moto Assist

Based on where you are and what you are doing, Moto Assist suggests ways to help you throughout your day. For example, Moto Assist can keep your phone quiet at night when you are asleep.

Moto Voice

Your Moto Maxx is always ready for you. Use your voice to control your phone, even when it's not within reach.

Moto Display

See messages, calls, and other notifications as they arrive. Even when your phone is asleep, information discreetly appears on the screen.

Moto Actions

Wave your hand to silence calls or snooze alarms. See your latest notifications with Moto Display just by reaching toward your phone with your hand. Or launch the camera with two flicks of your wrist.

SplashGuard protection

Your Moto Maxx phone uses a unique nano-coating for water resistance and protection from everyday accidents like spills, submersions, and rain. No doors or gaskets required.

The water-repellent SplashGuard coating works from the outside in, helping to protect your phone against accidental drops in puddles or water, random coffee or soda spills, or the occasional thunderstorm.

Google Now™

Google Now brings you just the right information at just the right time, before you even ask. Weather, traffic, transit schedules, even the latest scores come automatically, appearing throughout the day just as you need them.

Find it: Flick Home  up

Camera

Take super clear photos with a twist of your wrist and a tap on the screen.

- **Launch it:** Twist your wrist twice, quickly, to launch the camera anytime.
- **Capture it:** Tap the screen or press the volume keys to take a photo.
- **Record 4K video:** Capture and play back movie-quality 4K video content.

Google Play™

Google Play is a digital content experience from Google where you can find and enjoy your favorite movies, books, magazines, and Android apps and games.

Find it: Apps  →  **Play Store**

Note: Content may not be available in all countries.

For Your Safety

Before assembling, charging or using your mobile device for the first time, please read the important product safety and legal information provided with your product.

Warning: Don't try to remove or replace the battery yourself—doing so may damage the battery and could cause burning and injury. If your phone becomes unresponsive, try a reboot—press and hold the Power key until the screen goes dark and your phone restarts.

Specific Absorption Rate (FCC & IC)

YOUR MOBILE DEVICE MEETS FCC AND IC LIMITS FOR EXPOSURE TO RADIO WAVES.

Your mobile device is a radio transmitter and receiver. It is designed not to exceed the limits for exposure to radio waves (radio frequency electromagnetic fields) adopted by the Federal Communications Commission (FCC) and Industry Canada (IC). These limits include a substantial safety margin designed to assure the safety of all persons, regardless of age and health.

The radio wave exposure guidelines use a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit for mobile devices is 1.6 W/kg. Tests for SAR are conducted using standard operating positions with the device transmitting at its highest certified power level in all tested frequency bands. The highest SAR values under the FCC and IC guidelines for your device model are listed below:

Head SAR	GSM 850 MHz, Wi-Fi, Bluetooth	0.34 W/kg
Body-worn SAR	LTE B4, Wi-Fi, Bluetooth	1.38 W/kg

During use, the actual SAR values for your device are usually well below the values stated. This is because, for purposes of system efficiency and to minimize interference on the network, the operating power of your mobile device is automatically decreased when full power is not needed for the call. The lower the power output of the device, the lower its SAR value.

If you are interested in further reducing your RF exposure then you can easily do so by limiting your usage or simply using a hands-free kit to keep the device away from the head and body.

Additional information can be found at www.motorola.com/rfhealth.

Usage

This phone supports apps and services that may use a lot of data, so make sure your data plan meets your needs. Contact your service provider for details. Certain apps and features may not be available in all countries.

Copyright & Trademarks

Certain features, services and applications are network dependent and may not be available in all areas; additional terms, conditions and/or charges may apply. Contact your service provider for details.

All features, functionality, and other product specifications, as well as the information contained in this guide, are based upon the latest available information and believed to be accurate at the time of printing.
