

wireless portable speaker

- 4W, 8hr
- Long Bluetooth range
- Waterproof, dustproof
- By pack USB strap

BT3900A/37

Music never stops

My music never stops. Everplay wireless portable speaker keeps playing all the time without interruption thanks to the strong Bluetooth connection and intuitive charging options. Its custom fabric makes it beautiful as well as super durable

Benefits

Big sound

- Powerful driver with bass radiator for big sound
- Bass radiators for extra bass boost and extension
- Anti-clipping function for loud, distortion free music

Strong Bluetooth connection

- Wireless music streaming via Bluetooth
- Strong Bluetooth connection up to 30m or 100ft
- Built-in microphone for hands-free phone calls

Intuitive charging

- Battery indicator to easily view power level
- USB cable doubles as a strap

Super durability

- Durable build – shockproof, dustproof and waterproof (IP57)
- High performance DuraFit fabric

PHILIPS

Features

Anti-clipping function

Anti-Clipping lets you play music louder and keeps it high quality, even when the battery is low. It accepts a range of input signals, from 300mV to 1000mV and keeps your speakers safe from damage by distortion. This built-in function monitors the musical signal as it goes through the amplifier and keeps peaks within the amplifier's range, preventing the audio distortion caused by clipping without affecting loudness. A portable speaker's ability to reproduce musical peaks decreases along with battery power, yet anti-clipping reduces peaks caused by low battery, keeping music distortion free.

Wireless music streaming

Bluetooth is a wireless communication technology that is both robust and energy-efficient. The technology allows easy wireless connection to iPod/iPhone/iPad or other Bluetooth devices, such as smartphones, tablets or even laptops. So you can enjoy your favorite music, sound from video or game wireless on this speaker easily.

30m Bluetooth range

Move freely around with your smart phone, without worrying about dropping your music. EverPlay speaker offers an incredibly stable and long-range Bluetooth connection up to 30 metres or 100 feet, three times faster than industry standards. The speakers are equipped with a sensitivity antenna and radio frequency filter to minimize background interference.

Battery indicator

Finally, a Bluetooth speaker that provides a simple, clear way to see how much remaining power you have! With EverPlay, simply push the power button to see how much battery is left.

Durable build

EverPlay speaker is super durable and features dust, shock and water resistance. Dust cannot interfere the operation of the speaker. And it is able to withstand immersion in water up to 1 meter for up to 30 minutes. This means that a session in the shower, getting caught in the rain, or a quick drop into a body of water will not cause damage. Under Shockproof designation, this product is tested in a "Torture Chamber" to undergo a roller swing test with simulated 5-year product life-time reliability. Everplay is truly durable built!

DuraFit Fabric

The DuraFit fabric covering the speaker provides both functional and aesthetic benefits. With upper rubber overlays covering a matching accent-colored cloth, the anti-slip, scratch resistant and washable material offers additional protection, while the unique rhombus mesh pattern also gives it a more modern, sophisticated style.
