Assess and measure the condition of your skin

- Analyse your gloss & hydration levels, for better skincare
- Assess and coach you for optimal skincare

Receive daily skincare advice tailored to you

- Get coaching from our app, developed with local experts
- Get timely advice based on external conditions and locale

Highlights

Excellence by design

The FaceSmart shaver is designed to be exceptional in every way. Heads effortlessly flex in 5 directions for extra comfort. An anti-friction, microbead coating around each ring ensures a smooth glide across your skin and the blades within the rings gently guide each hair into position for a close shave. In addition the Aquatec Wet and Dry seal allows for you to shave comfortably, wet or dry and the intuitive display makes it easy to use.

Build to last

For your convenience, you can choose to charge the FaceSmart shaver for an hour for up to 50 minutes of shaving time, or a quick charge for one full shave. The entire shaver can be rinsed clean under the tap and we back this Philips shaver with a 2-year guarantee. Our FaceSmart shaver is designed for personalized performance and durability, promising you a close shave time after time.

Silky soft bristles

Simply click the brush on your shaver and use it together with the cleanser of your choice. The 17200 active bristles thoroughly and gently clean even the hardest-to-reach areas of your face for smooth and healthy looking skin.

SkinAnalyst

Introducing SkinAnalyst – Philips' first ever skin analysis service for men. Simply click the sensor onto your iPhone and connect to the app to optimize your skincare routine on a daily basis.

Smart Shaving

Upgrade your shaving routine with Philips's new FaceSmart shaver. Our Bluetooth® connected shaver handle personalizes the settings of your shaver head, based on the skin assessment done by our SkinAnalyst. Simply click the shaving head onto your handle after the skin assessment then connect with the SkinAnalyst; your shave will be optimized depending on what your skin needs – so you get the best results for you.

Smart Cleansing

Upgrade your cleansing routine with our new FaceSmart cleansing brush. Our Bluetooth® connected shaver handle personalizes the settings on your brush, based on the skin assessment done by our SkinAnalyst. Simply click the cleansing brush onto your handle after the skin assessment then connect with the SkinAnalyst; your cleanse will be optimized depending on what your skin needs. Specifications are subject to change without notice. The best results for you.

Automated program setting

Optimize your shaver and cleansing brush based on your skin assessment. One of the four available programs will be assigned to you depending on your skin condition: normal,
