

10-Pack Horizontal Lacing Bar, Server Rack Cable Management, 19" Network Rack-Mount Cord Organizer, TAA

Product ID: CMLB10

These lacing bars install horizontally on the front or back of your rack to provide a secure mounting point for you to run cables. You can attach your cables to the lacing bars using cable ties to reduce the tension on your cables and prevent damage to the ports on your rack-mount equipment.

Cable lacing bars protect your equipment by offloading the weight of the cables in your rack, which reduces the constant strain that can be put on the ports of your rack equipment. The lacing bars also provide a route for cables, which enhances passive cooling within your rack. This helps to ensure your rack remains at an optimal temperature, to extend the life of your equipment and minimize or eliminate downtime.

These cable lacing bars are constructed of solid steel and occupy just one-third of a rack U at each install point. The round solid-steel design ensures a high weight capacity, unlike flat lacing bars that can bend easily.

This package includes 10 cable lacing bars, enabling you to buy multiple bars packaged together. This is ideal for large-scale implementations, because it significantly reduces the packaging, and in turn, shipping costs.

The CMLB10 is backed by a 2-year StarTech.com warranty and free lifetime technical support.

Certifications, Reports and Compatibility

Applications

- Reduce the cable strain that's put on your rack-mount equipment's ports, protecting your equipment from damage

- 10 lacing bars included to lower the cost of shipping
- Constructed of solid steel with a round design for maximum weight capacity

Features

- **Simplify Rack Cable Routing**: Mounts horizontally to standard 19-inch server racks to support clean vertical cable runs in server rooms or network closets, helping relieve strain on equipment ports during installation and servicing
- **IT Grade**: This 10-pack is built for bulk deployment and cost-effective shipping; Each low-profile lacing bar occupies just one-third of 1U, making it perfect for dense rack environments
- **Reduce Thermal Buildup**: Supports passive cooling by keeping cables organized and out of airflow paths, helping maintain proper rack temperatures and prevent heat-related performance throttling
- **Guard your gear**: Constructed from solid steel and rounded profile, each bar is designed for high weight capacity and cable strain relief, preserving signal quality and port longevity
- **The IT Pro's Choice**: Built to keep racks tidy, organized, and airflow-efficient, our rugged rack accessories are tested for strength and long-term performance; Backed by free lifetime 24/5 multilingual technical support

Hardware

Warranty	2 Years
Frame Type	Steel
U Height	1U
Industry Standards	EIA/ECA-310-E
Orientation	Horizontal

Physical Characteristics

Color	Black
Product Length	19.0 in [48.3 cm]
Product Width	0.4 in [1.1 cm]
Product Height	0.2 in [6.0 mm]
Weight of Product	3.4 oz [95.0 g]

Packaging Information

Package Quantity	10
------------------	----

Package Length	4.8 in [12.1 cm]
Package Width	20.1 in [51.0 cm]
Package Height	2.2 in [5.6 cm]
Shipping (Package) Weight	3.4 lb [1.5 kg]

What's in the Box

Included in Package	10 - cable lacing bars
	20 - M5 screws
	20 - M5 cage nuts

Warranty Information

Warranty	2 Years
----------	---------

****Product appearance and specifications are subject to change without notice.***
