Marketing

Extended retailer text	Giving a Presention has never been so easy! With the Preme Wireless Laser Presenter you have the complete control of your presentation in one hand. This presenter has two operating modes: mouse- and presenter mode.
	15m wireless range
	The powerful USB receiver provides the presenter with a wireless range of 15 meter*. Thanks to this range you are ensured of giving an optimal presentation regardless the size of the room . No more annoying interruptions due to your presenter, while giving a presentation. The USB receiver is also easy to store in the cabinet.

Mouse Mode

With the switch on the side you can easily activate mouse mode. In mouse mode, you can use the analog stick to move your mouse cursor. The two buttons next to the stick function as left and right mouse buttons. On the bottom end of the presenter there are two additional buttons, allowing you to easily navigate through your web browser or windows explorer (previous or next page).

Presenter mode

With the same switch on the side you can put the presenter back in present mode. This mode ensures optimal settings during presentation. You can start presentations easily by pressing the 'start presentation' button. With the buttons next to the stick you can operate your slides (previous /next). The laser pointer can be used to emphasize important aspects of y our presentation. The analog stick is disabled in this mode to prevent unintended mouse movements. Finally, the monitor can be switch off simply by pressing the referred button.

* In ideal conditions to 20 meters wireless range
