APC Back-UPS BN900M

Power and protect all of your critical electronics while maintaining your internet connection during prolonged outages. The new and improved APC Back-UPS BN900M keeps you connected to what matters the most by providing more runtime and battery backup outlets than ever before.

Stay connected to what matters

The APC Back-UPS BN900M optimizes home and small business uninterruptible power supplies (UPS) by focusing on the most critical aspects of power protection:

More Runtime: Power your critical electronics for longer than ever before; the BN900M is capable of powering your wireless networking equipment for nearly 6 hours after safely shutting down your PC or other high powered devices.

More Battery Backup Outlets: Power more of your critical electronics during a power outage; the BN900M has enough outlets to power up to 6 devices at once.

Added Convenience: Wide outlet spacing allows you to plug in bulky transformer plugs without covering other outlets.

Smaller and Lighter: The new BN900M is smaller and lighter than previous models, allowing you to easily relocate and position your UPS in any environment.

Never let a power disruption interrupt your life again, with the new APC Back-UPS powering your critical electronics:

- Check email
- Stream movies and TV shows
- Make phone / video calls
- Check and update social media
- Continue gaming
- Maintain home automation and security systems

Stay connected for hours, not minutes

Power your wireless home networking equipment (router and modem) and maintain your internet connection for nearly 6 hours after safely shutting down your PC or other high powered devices

Charge and power more devices at once

6 battery backup and 3 surge protected outlets ensure you have emergency power for any device

Flexible design for both high and low powered devices

After safely shutting down your high power equipment, run low power devices (home networking equipment, VOIP) for hours

Reliable surge protection for peace of mind

Ensure your valuable electronic investments against damaging lightning, surges and spikes

Reliably silence alarms

Quick mute alarms with the touch of a button

Multiple alarm settings

Customize your power notifications so you only get information that is important to you

3 year warranty, \$75,000 Equipment Protection Policy

UPS and connected equipment insurance from the industry's most trusted power protection manufacturer

Wall mounting sockets

Keyhole sockets for mounting the UPS in structured wiring closets, behind desks, in basements, garages, etc.

APC Back-UPS

BN900M Technical Specifications

Extended runtime for high and low powered devices

- Desktop Computer (PC)
- Wireless router
- Broadband modem
- Mobile devices
- External monitor
- Voice-over IP (VOIP) phone
- Wi-Fi home security camera
- Structured wiring closet
- Television
- Security system
- Automation hub
- Gaming console

Runtime

Internet modem and router	10 watts	5.9 hours
Entry level PC	40 watts	90 minutes
Notebook computer + network gateway	80 watts	41 minutes
Mid range PC with 20" LCD + Notebook + network gateway	180 watts	14.8 minutes

Output

Output Capacity	900 VA, 480 Watts
Output Voltage / Frequency (On utility)	120Vac, 50Hz / 60Hz
Output Voltage / Frequency (On battery)	115Vac +/- 8%
Output Connections	9 NEMA 5-15 outlets; 6 battery backup / surge protection, 3-surge-only
Waveform Type	Simulated Sine Wave

Surge Protection

AC Power Surge Protection	All outlets
Circuit breaker	15A
AC Input	Resettable Circuit Breaker

Input

Maximum Adjustable Input Voltage	88-142 Vac
Frequency	48-63 Hz
Input voltage range for utility operation	92-139 Vac (medium sensitivity, default) 88-142 Vac (low sensitivity) 96-136 Vac (high sensitivity)
Input Connection	5 ft. (1.52 meter) line cord with NEMA 5-15 right angle plug

Physical

Color	Black
Dimensions (HxWxD)	5.47" x 4.13" x 12.87"
Weight	9.0 lbs

Management

Alarms	Audio and visual indicators
Software	PowerChute Personal Edition V3.0.2
Warranty	3 years repair or replace
Equipment Protection Policy	\$75,000
