

## **Plantronics CS520A Wireless Headset System**

Part code: A-PL-CS20A

### **Description**

The Plantronics CS520A Headset allows you to increase your productivity and multi-task more easily while you talk. It is the lightest DECT™ headset on the market and offers a wireless range of 120 metres so that you can work away from your desk while conversing.

DECT™ technology eliminates Wi-Fi interference, while the DSP technology provides more natural sounding voice. The headset also offers a noise-cancelling microphone so you can both hear and be heard clearly, making it ideal for busy office environments. The narrowband audio option allows you to save battery power, while wideband with CAT-iq technology gives you clearer, more professional audio.

## Features

- Gain mobility - multitask, hands-free up to 350 feet (100 meters)
- One-touch call answer/end, vol +/-, mute and flash controls
- Energy efficient adaptive power system optimizes for range and talk time
- Conference in up to three additional CS500 or Savi headsets for enhanced collaboration
- New headsets can subscribe to a base by simply docking the headset
- Use with Electronic Hookswitch Cable or Handset Lifter to remotely answer/end calls
