InLine® Screwdriver with bit holder 12in1

Artikel 43093

The extendable screwdriver with bit holder from InLine is the ideal companion for the household, on the construction site or for hard-to-reach places, where a screw has to be tightened, loosened or re-screwed. The included 6 double bits and the pull-out extension between the bit holder and handle make the hand screwdriver an indispensable item of everyday life. Have the right screwdriver at hand in the fastest and easiest way.

- 12 individual bits in one screwdriver: The screwdriver set from InLine contains 6 different double bits. The following double bits are included in the handle for pickup of 4mm hexagonal: Pentalobe P2/P5, slotted and phillips head 1,5mm/PH000, 2mm/PH00, torx T4/T8, T5/T9, T6/T10. (Pentalobe P2/P5 corresponds to TS1/TS4)
- Magnetic bit holder: The magnetic head of this screwdriver with automatic loading system simplifies to keep the bit of your choice in place while you work. The bit holder makes work easier and saves you from constantly losing your bits and holds the screws on magnetic bits, thereby prevents the otherwise ever-new positioning of the screw.

InLine® – Brand of Choice for IT and Electronics Accessories

In our InLine® brand, we offer a high-quality product range targeted specifically at end users. Our product range includes more than 4,000 IT and electronics accessory products which are described in detail on our website.
