

Data Sheet FUJITSU Storage ETERNUS DX60 S4 Hybrid System

The Economy Storage System for SMBs

ETERNUS DX - Business-centric Storage

FUJITSU Storage ETERNUS DX S4 is the perfect hybrid storage for SMB, something every business can afford, with integrated and powerful features for business growth, efficiency and continuity. Latest capacity and performance optimization capabilities contribute to comprehensive business efficiency. Outstanding data-safe technologies and all-inclusive encryption guarantee uncompromised business continuity

ETERNUS DX60 S4

Delivering reliable operation at an affordable price makes ETERNUS DX60 S4 an ideal disk storage system for small and medium-sized IT environments.

Management software, included at no extra cost, reduces administration effort and provides functionality to ensure data protection. Flexible support for different network connections and disk types enables choice in cost and performance optimization.

Designed for smaller environments it provides remarkable scalability in storage capacity offering good headroom for future growth. Thus makes it the perfect storage solution for consolidation of distributed data and for smaller server virtualization projects.

Features & Benefits

Benefits
■ Best-in-class price/performance ratio
■ Rich data safety functionality
■ Enterprise feature set
■ Single point administration
■ Easy and efficient operation
■ No extra cost for software package
■ Easy to install, configure, operate and maintain
Perfect fit for storage consolidation & virtualization
Serves the need of medium capacity requirements and predictable growth rates
