

Hypertec FirestormExternal® USB-C External Solid State Drive

Low Cost, High Performance External Storage

Hypertec FirestormExternal® SSDs are a low cost performance SSD ideally suited for organisations looking to increase portable storage, without compromising on speed and efficiency. With no moving parts, SSDs are a robust and reliable storage solution for workforces and individuals.

Enjoy Ultra-Fast File Transfers with USB-C

Now featuring the latest USB 3.1 Type-C connection, the FirestormExternal® is capable of ultra-fast file transfers and can be used by any computer user with USB-C Laptop, Ultrabook or PC.

The ultraportability of the FirestormExternal® SSD makes it the ideal solution for mobile workers and organisations that require regular large file transfers between multiple devices
