

Car Charger

CPTDC2U / CPRDC2U1DCRC1 / CPTDC01

CCD0012UN-00

Quick Charging Technology for USB/DC Powered Devices

CyberPower designs and manufactures the most comprehensive line of mobile charging devices. 2.1 Amp quick charging technology, with USB and/or DC outlets allows you to charge your mobile devices anytime, anywhere!

CyberPower car chargers are designed with careful consideration for mobility, durability, accessibility, and ease-of-use. The compact device converts 12V battery power to charge your devices.

The car charger is the perfect solution for powering mobile electronics anywhere a 12V power source is available. The quick charging technology maximizes charging potential for digital tablets, phone, MP3 players and other mobile devices, ensure the fastest charge possibility. The DC power outlet is perfect use with portable GPS units or other DC powered devices. Now you can power your cell phones, PDAs, video game consoles, portable DVD players, and digital cameras on the road!

Product Features*

- LED Indicator
 - USB Power Outlet(s)
 - DC Power Outlet
 - Quick Charge Technology
 - Charges Tablets, including iPad
- * Features may vary from models

Model	CPTDC2U	CPTDC2U1DCRC1	CPTDC01
Capacity (VA / Watts)	10.5W (5V / 2.1A)	10.5W (5V / 2.1A)	5W (5V / 1A)
Input			
Input Voltage Range	12Vdc		
Input Connection Type	Cigar Plug		
Output			
Output Voltage	5Vdc +/- 5%		
Outlet Types	(2) USB	(2) USB, (1) Auto(Cigarate)	(1) USB
Protection			
Overload Protection	Yes		
Overheat Protection	Yes		
Physical			
Dimensions (mm)	82 x 1.22ψ	112 x 49 x 28.5	93 x 40 x 16.5
Weight (g)	55	118	30
