Highlights

ProMix blending technology

Developed together with the prestigious Stuttgart University, Philips ProMix is a unique, advanced technology that uses a specific triangular shape to create optimal food flow and maximum performance for faster and more consistent blending.

Powerful 800 Watt motor

Powerful and reliable 800W motor that can drive a large variety of accessories to allow processing of almost any ingredient and deliver great results during food preparation.

Foodprocessor accessory

With the 1,5L foodprocessor accessory of the Philips handblender you can chop slice and shred ingredients like vegetables, herbs, meat, cheese.

Whisk accessory

Single whisk accessory for Philips hand blender for whipping cream, mayonnaise, pan cake batter and more. Makes your hand blender multifunctional and versatile.

Titanium coated blade

Titanium layer coating (TiN) that makes the knife six times harder than a regular stainless steel knife and ensures great performance over time. Combined with optimized knife shape and unique ProMix triangular shape of the bar for the best blending results. It is food safe.

Anti-splash blade guard

The special wave shape in the bottom part of the handblender blending bar guarantees no splashes or mess while you blend.

Ergonomic rubber grip

Ergonomic soft touch handgrip, designed to give a secure and safe grip which allows for easy holding and maneuvering of the hand blender during use.

Single-Button Release System

Simple, quick and easy attachment and detachment of the blending bar and all the accessories with the use of one finger.

SpeedTouch with Turbo boost

Intuitive variable speed setting and turbo boost in one button that gives you more power as you squeeze. Start slowly to prevent splashing and smoothly speed up till you reach the required speed for each application and every type of ingredient. Prepare all your favorite recipes at the touch of a button.
