- Wake up and go to sleep naturally

Highlights

Light for your daily routines

Light influences our mood and behaviour. Philips Hue can help you to customise your daily routines into moments that you can enjoy. Skip your morning coffee and get ready for the day with cool, bright-white daylight that helps to energise your body and mind. Stay focused with finely tuned bright-white light. Or put your feet up and relax with a soft glow of white light for the perfect end to the day.

Dimmer switch (included)

With the battery-powered dimmer switch for Philips Hue, you can control the light of your white ambience lamps easily. Cycle through the four different light scenes by simply pressing the on button, dim the light up or down and settle for ease of use. The dimmer switch can be placed anywhere in its small and elegant dock and needs no wiring. Use as a remote control or as a light switch against the wall and enjoy the right light recipe for every moment of your day. You can add up to 10 Hue lights to one dimmer switch.

High light output

High-quality light with strong light output, providing plenty of white light for any moment or task.

Full control with the Hue bridge

Connect your Philips Hue lights with the bridge to unlock the endless possibilities of the system.

Create your ambience

Set the right ambience for any moment and decorate your home with warm to cool white light. Enjoy different styles throughout the year, whether it's the crisp white light reminding you of a spring breeze, the warm white light of a summer sun or the ice cool daylight of winter.

Control your way

Connect your Philips Hue lights with the bridge and start discovering the endless possibilities. Control your lights from your smartphone or tablet via the Philips Hue app, or add switches to your system to activate your lights. Set timers, notifications, alarms and more for the full Philips Hue experience. Philips Hue even works with Amazon Alexa, Apple HomeKit and Google Home to allow you to control your lights with your voice.

Smart control, home and away

With the Philips Hue iOS and Android apps you can control your lights remotely, from wherever you are. Check if you have forgotten to switch your lights off before you left home, and switch them on if you are working late. Connection with the Philips Hue bridge is required for this functionality.

Timers for your convenience

Philips Hue can make it seem like you're at home when you're not, using the schedule function in the Philips Hue app. Set the lights to come on at a pre-set time, so the lights are on when you arrive home. You can even set

rooms to light up at different times. And of course, you can let the lights turn off gradually during the night, so you never have to worry whether you've left any lights on. Connection with the Philips Hue bridge is required for this functionality.

Wake up and go to sleep

Philips Hue will help to get you out of bed the way you like it, helping you start your day feeling refreshed. The light's brightness increases gradually, mimicking the effect of sunrise and helps you wake up naturally, instead of being woken up by the loud sound of an alarm clock. Start your day the right way. In the evening, the relaxing warm white light helps you to unwind, relax and prepare your body for a good night's sleep. Connection with the Philips Hue bridge is required for this functionality.
