- Perfect decalcification for a prolonged machine lifetime
- Protects your system against limescale build-up
- Philips approved descaling solution
- Maintains the coffee taste over time
- Ensures the coffee temperature is right for enhanced taste
- Only use Philips consumables

Highlights

Perfect decalcification

The Philips decalcifier cleans all the water circuits in your espresso machine.

Protected from limescale

Limescale is a natural part of water used for the machine's operation. This special decalcifier protects your appliance from the build-up of limescale which affects performance and taste. It is highly effective, safe and easy to use.

Philips approved descaling

The exclusive formula of the Philips espresso machine decalcifier ensures thorough decalcification without harming the delicate parts inside your appliance.

Maintain the coffee taste

Regular maintenance ensures the best taste and aroma from your Philips and Saeco espresso machine.

Coffee temperature is right

The decalcifier removes limescale residues in the water cycle that would absorb heat from the boiler, therefore lowering your coffee temperature.

Philips Original

Please use only Philips consumables to ensure the maximum lifetime and the safety of your Philips and Saeco appliances.

Specifications

General Specification

Product Type: Accessory
