Lexmark™

Lexmark CX727de

CX727de

Production-class speed with built-in business solutions

The Lexmark CX727de delivers print speeds up to 47 pages per minute and scan speeds up to 56 sides or images per minute. With built-in business solutions, maximum input capacity of up to 2,300 sheets, a recommended monthly print volume up to 20,000 pages, stunning PANTONE®-calibrated colour and large e-Task touch screen, the CX727de provides production-level capabilities in a compact footprint.

Quad-core processing power

Printing graphics-intensive colour files can be a challenge for any MFP. However, with its powerful print controller (1.2 GHz quad-core processor, up to 4GB of memory and optional hard disk), the CX727de can easily power through complex documents. Time to first colour page is as quick as 5.5 seconds.

Lexmark colour-matching tools and PANTONE calibration deliver rich, consistent colour printing so you can save time and money by producing your colour documents and prints in-house.

Colour	Solutions	Up to 47 ppm	17.8 cm touch screen	Unison™ TONER
Security	Network	Mobility	RADF Duplex	

Security. Confidential Print.

Extensive network security features and protocols protect your device, information and network from unauthorised access.

Keep your sensitive documents safe by enabling the Confidential Print feature, which requires entering a customised, unique PIN on the device's keypad before the document can be printed.

Compatible with leading mobile print platforms

Print from mobile devices using an optional Wi-Fi adapter or Lexmark's free Mobile Print app. The CX727de is AirPrint®-certified and includes support for iOS, Android and Microsoft® Windows Mobile printing. It is also Mopria®-certified and Google Cloud Print™ Ready.

4 YEARS Guarantee

4-year Guarantee

Given the choice, wouldn't you prefer to buy a device that protects your investment with a guarantee? The affordable CX727de is so well made, we back it with a guarantee that covers repair actions including the cost of spare parts if they are needed in the first four years*. The guarantee also offers you free 24-hour online support and access to technical support by phone during working hours.

Large colour e-Task touch screen can be customised for each user

The e-Task interface transforms the CX727de into your own personal gateway to use time-saving solutions, customised shortcuts and workflows.

Simply log in at the printer and you immediately see your own personalised 17.8 cm screen with all of the one-touch shortcuts you've created to scan, print, copy or send faxes, emails and other documents using your preferred settings.

Monitor jobs and supplies on the touch screen or from a remote location via the CX727de's web interface.

Software solutions increase productivity and save money

Lexmark's Embedded Solutions Framework (eSF) allows the CX727de to load and run software solutions tailored to your specific need or industry, to avoid having to develop and host your own applications.

The CX727de runs a wide range of optional eSF applications created by Lexmark, its partners and customers to solve specific challenges. Simply select and load an eSF app and run it directly on the device, eliminating the need to manage server-based applications.

User-friendly

The CX727de is simple to install, easy to use and offers full compatibility with nearly every operating system and network, so you'll be up and running in minutes. It's built to last, so you'll easily be able to print up to 20,000 pages per month, thanks to our state-of-the-art paper handling technology and long-life consumables.

The Lexmark print system and Unison™ Toner ensure consistent print quality throughout the life of the cartridge to prevent wasted prints.

Lexmark's Mobile Print app for iOS and Android devices provides a simple and consistent user experience for printing from mobile devices. It features simple printer discovery and mobile print options.

A front USB port lets you print PDF and other image files directly from a USB key, and store scanned documents.
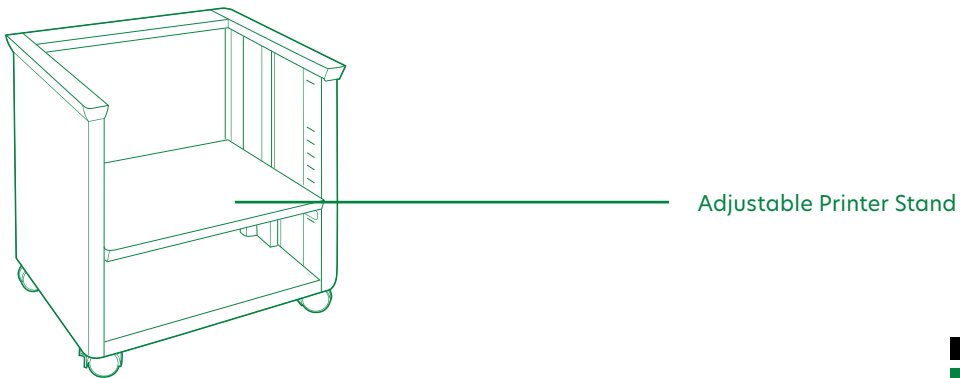

Eco-friendly

Built-in two-sided printing reduces paper use. The instant warm-up fuser saves energy and delivers the first printed page as fast as 5.5 seconds. Select an energy-saving mode (Quiet, Hibernate or Eco) to automatically minimise noise and energy consumption.

Through the Lexmark Cartridge Collection Programme, Lexmark offers a free and easy way to return your empty cartridges for sustainable recycling or remanufacturing.
