PHILIPS

IPL - Hair removal device

For use on body and face 20 minutes to treat lower legs, >100,000 lamp flashes, Bonus: Wet and dry shaver

Highlights

Application areas

Use with confidence to remove hair on face (upper lip, chin) and body parts including legs, arm pits, bikini area, belly and arms.

Effortlessly effective

Our clinical studies have shown significant hair reduction in as little as four fortnightly treatments resulting in smooth hair free skin. To maintain these results, simply repeat the treatment when needed. Time between treatments may vary based on your individual hair regrowth. - To enlarge this picture, please click on the image in the image gallery on the top of this page

Skin Tone Sensor

For extra safety the integrated skin tone sensor measures the treated skin complexion at the beginning of each session and occasionally during the session. If it detects a

skin tone that is too dark for this product it will automatically stop emitting pulses.

5 light energy settings

Philips Lumea has five adjustable light energy settings to ensure gentle but effective treatment. Used correctly, Philips Lumea's IPL treatment is safe and gentle to use even on sensitive skin and sensitive body areas.

Gentle treatment

Gentle on your skin.

Enjoy smooth skin every day

Philips Lumea applies gentle pulses of light to the hair root. As a consequence, the amount of hair your body grows gradually decreases. Repeating the treatment leaves your skin beautifully hair free and touchably smooth.

BRI858/04

Suitable hair and skin types

Philips Lumea works effectively on (naturally) dark blonde, brown and black hairs. As with other light-based treatments, Philips Lumea is NOT effective on red, light-blonde or white/ grey hair. This product is also NOT suitable for dark skin.

No replacement parts needed

Philips Lumea is a complete solution that comes ready to work, straight out of the box. No refill cartridges or gels needed.
