WorkForce Pro WF-R5190 DTW BAM
Providing predictable printing costs, this revolutionary business inkjet printer requires minimal user intervention, boosting productivity.

This breakthrough business printer, available exclusively through an Epson-approved managed print service provider, features Epson's Replaceable Ink Pack System (RIPS) to deliver super-high-yield printing. With this A4 workgroup printer, offices can benefit from the increased productivity of a local distributed print fleet that requires minimal intervention, while providing predictable print costs.

Print 75,000 pages uninterrupted
Print up to 75,000 pages in black or 50,000 pages in colour without replacing the ink[1] thanks to this printer's super-high-yield ink supply units.

Built for business
PrecisionCore technology powers the output quality that Epson is known for, at the speeds required for office, commercial and industrial printing. Prints dry fast thanks to the DURABrite Ultra ink. PDL printing emulations, including PCL and Adobe PostScript 3, and Gigabit Ethernet help this printer easily integrate into the business environment. Its Wi-Fi Direct® capability also lets you print from supported wireless devices without connecting to a router.

Energy efficient
The WF-R5190DTW uses up to 80 percent less power than competitive colour lasers[2] thanks to its no heat technology. No ozone gas is emitted, and an improved quiet print mode and no fan noise during or after printing makes it ideal for the working environment. And there are fewer parts to replace than a laser.

Save time
Get more done with print speeds of up to 34ppm in mono and 30ppm in colour, or 20ppm ISO print speed in both[3]. Its high paper capacity of up to 580 sheets means less time is spent refilling. It features automatic double-sided printing to make any job easy and efficient.
