

InLine® USB Smart Control, Multimeter, charge monitoring, USB A to Micro-B cable with display, 1m

* Preise inkl. gesetzlicher MwSt. zzgl. Versandkosten

Marke: INL

Bestell-Nr.: 66761

The InLine® USB SmartControl Multimeter combines overheating-, overcurrent- and overvoltage- protection as well as timer and a capacity counter in one device.

The following control indicators can be selected one by one at the push of a button:

- Overall safety status
- Overheating protection
- Overcurrent protection
- Overvoltage protection
- Capacity counter
- Previous Charge (displays the mAh of the previous charging process)
- In addition, a timer can be set for how long a charging operation shall last and then be terminated automatically. The choice is 2, 4, 6, 8, 10 hours

Specification:

- Length: 1m
- Weight: 43g
- Voltage: From 4.5 to 20V

- Current: From 0 to 2.5A
- Power consumption: 40mW
- Scope of delivery: InLine® USB Smart Control, user manual
