BSC431/05

Removes pollution, skin feels lifted and refreshed

Ideal for skin exposed to pollution and stress

Skin affected by pollution and stress looks tired, dull, loses firmness and ages faster.

VisaPure Advanced is a 3-in-1 ritual that removes city pollution and stress from your skin.

Remove pollution and reclaim your radiance.

Anti-pollution cleansing

- The brush has the power to clear up to 100% pollution
- Charcoal infused sponge draws out pollution from the skin
- Removes make up & dirt up to 11x better than hands
- Increases the absorption of your favorite skincare products

Lifting & Revitalizing Massage

- Relaxes facial muscles and makes skin feel lifted
- Increased blood flow restores nutrients to the skin

Fresh skin

- Refreshing skin boost that lasts
- Cooling effect: skin cools down for up to 8 mins

Developed with experts

- Developed together with a wide range of skin experts

Highlights

BSC431/05

Anti-pollution Brush

Today's polluted, tired skin is not just temporarily tired and dull, it's also tomorrow's prematurely aged skin. Our Anti-pollution brush combines a bamboo infused charcoal sponge with silky smooth bristles to draw out and remove even the tiniest pollution particles. If not properly removed from the skin, pollution sticks to the skin, penetrating deeply and damaging collagen.

Charcoal infused sponge

Charcoal is well known for its excellent absorbent and purifying properties. The charcoal in our brush is natural and comes from carbonated bamboo wood.

Up to 11X better cleansing

With its unique combination of bristles, carbon infused sponge, the brush is able to remove even the smallest pollution particles, to provide a superior cleanse, while being just as gentle.

Lifting & Revitalizing Massage

The revitalizing brush head is designed to relax the facial muscles while stimulating lymphatic drainage. Tests show that 92% of women who used the massage head found that their skin was firmer and lifted.

Increased blood flow

After using the massage head, an increase in blood flow is visible with a heat camera. Increase in blood flow means more nutrients are brought to the surface of the skin, replenishing it.

Fresh skin

The cooling Fresh skin attachment has a cold, ceramic surface that instantly cools and refreshes skin. It also vibrates, simulating the stimulating finger tapping movements used at the end of a facial to give tired skin a refreshing boost.

Cooling effect

Immediately after using the Fresh Skin head, a decrease in skin temperature is visible with a heat camera. The difference in temperature can be observed for up to 8 minutes after usage.

Increases absorption of creams

Cleansing with VisaPure means that you remove more make up residue and dull and dead skin cells. Thanks to the deep cleansing effect, your favorite skincare products such as creams, serums and essences are better absorbed by the skin.
