

NGS SPORT EARPHONES ARTICA SWING

WATER RESISTANT ULTRA LIGHT SPORT BLUETOOTH HEADPHONE-12GR

Ultralight wireless sport earbuds with Bluetooth® technology, compatible with smartphones and tablets. NGS Artica Swing outstands for its audio performance and 12 gr weight.

Furthermore they are resistant to sweat and splash, thanks to its IPX5 technology you will be able to practice not only indoor but also outdoor sports.

NGS Artica Swing is equipped with hands-free function. Designed to give you the freedom you need while playing sports, you can control your phone calls from the earphones without stopping your training.

These in-ears earphones feature a "Perfect Fit" fastening system that ensures a secure and comfortable fitting. Ideal for running or going to the gym, they include 6 ergonomic soft silicone ear cushions with 3 sizes (L,M,S) and 2 different shapes (C Format and standard) that are fixed securely to your ear.

The headphones come with a built-in microphone and control buttons (Play/PAUSE, FWD & REW). They include a built-in rechargeable battery (Lithium ion 95 mAh) that allows up to 6 hours of working time.

NGS Artica Swing headphones outstand for their light and compact design, combining gray with yellow fluorine details. The headband around the neck is hardly noticeable.

Includes a carrying case to store the earphones in an organized way when you finish your workout sessions.

Finally, you can pair them with your Bluetooth® device with 10 meters range, enjoy freedom of movements.
