Clock Radio

DAB+/FM, Digital tuning

Dual alarm  
Time & alarm backup

AJB3000

## Wake up to crystal clear digital radio

Start your day right with the Philips AJB3000 clock radio, featuring built-in DAB and FM radio. With dual alarms for you and your partner, you can choose your favorite station to wake up to, or set the reliable buzzer.

### Easy to use

- Battery back-up ensures memory of time during power failure
- Auto time synchronization ensures accurate time without fuss
- Sleep timer for easy falling asleep to your favorite music

### Start the day your way

- Gentle wake for a pleasant wake up experience
- Wake up to your favorite radio tune or a buzzer
- Dual alarm to wake you and your partner at different times
- Repeat alarm for additional snooze

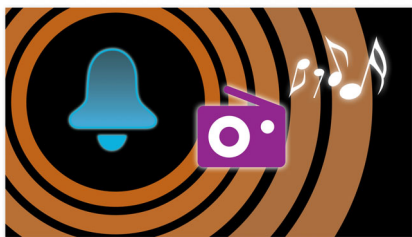

### Enjoy digital quality DAB radio

- DAB and FM compatible for a complete radio experience
- Digital tuning with preset stations for extra convenience

# PHILIPS

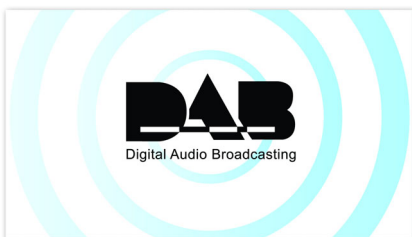

# Highlights

## Wake up to radio or a buzzer

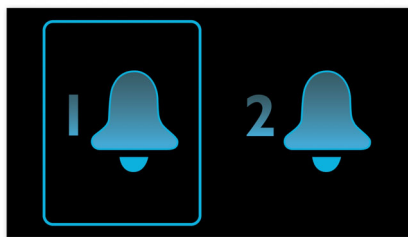

Wake up to sounds from your favorite radio station or a buzzer. Simply set the alarm on your Philips Clock radio to wake you with the radio station you last listened to or choose to wake up with a buzzer sound. When the wake up time is reached, your Philips Clock radio will automatically turn on that radio station or trigger the buzzer to sound.

## Auto time synchronization

With the automatic time setting function in your clock radio, you do not ever have to set the time. The clock synchronizes with radio signals automatically, even when it is switched off. It updates itself within one minute when there is an immediate need for adjustment, and makes routine synchronizations with radio signals to ensure it keeps accurate time always. From the first time you take the clock radio out of the box, to the time a power outage occurs, you can depend on your Philips product to give you the right time, fuss-free and reliably.

## Dual alarm

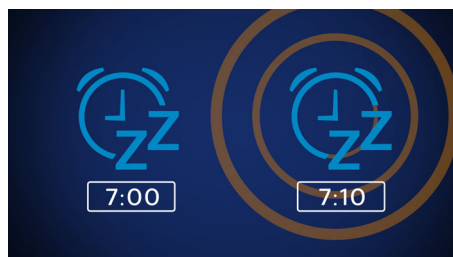

The Philips audio system comes with two alarm times. Set one alarm time to wake you up and the other time to wake up your partner.

## Gentle wake

Start your day right by waking up gently to a gradually escalating alarm volume. Normal alarm sounds with a preset volume are either too low to wake you up or are so uncomfortably loud that you are rudely jolted awake. Choose to wake up to your favorite music, radio station or buzzer alarm. Gentle wake's alarm volume gradually increases from subtly low to reasonably high in order to gently rouse you.

## Repeat alarm

To counter oversleeping, the Philips Clock radio has a snooze feature. Should the alarm

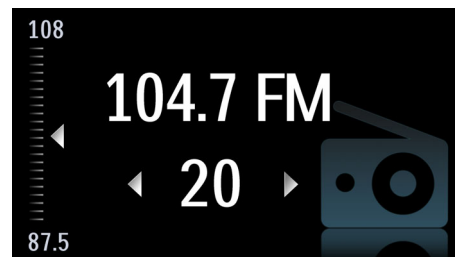

ring and you wish to continue sleeping a bit longer, simply press the Repeat Alarm button once and go back to sleep. Ten minutes later the alarm will ring again.

## DAB and FM compatible

DAB (Digital Audio Broadcasting) digital radio is, on top of FM analog transmission, a new way of broadcasting radio via a network of terrestrial transmitters. It provides listeners with more choices and information delivered in clear, crackle-free sound quality. The technology allows the receiver to lock on to the strongest signal it can be find. With DAB digital stations there are no frequencies to remember, and sets are tuned by station name, so there is no returning on the move.

## Digital tuning with presets

Simply tune into the station that you want to preset, press and hold the preset button to memorize the frequency. With preset radio stations that can be stored, you can quickly access your favorite radio station without having to manually tune the frequencies each time.

# Specifications

## Sound

- Output power (RMS): 1W
- Sound system: mono

## Tuner/Reception/Transmission

- Antenna: FM antenna
- Auto digital tuning
- DAB: Band III, Info display, Smart Scan
- RDS: Program Type, Radio Text, Station Name
- Tuner bands: FM
- No. of preset stations: 20 FM
- FM frequency range: 87.5 - 108 MHz
