

NGS TOWER SPEAKER SKYLINE

50W-BLUETOOTH- MICRO SD/USB INPUTS- FM RADIO-AUX IN

NGS Skyline is an elegant speaker system with the shape of a tower equipped with 50 W real output power and **wireless Bluetooth technology**.

You can manage the tower system from your external devices thanks to its five forms of connectivity: Bluetooth, micro SD Card, USB, Radio FM and AUX IN

Connect your home cinema, tv or any other device in a simple manner via Bluetooth.

Additionally, you can listen to your MP3 songs stored in your micro SD card or in your USB memory. Enjoy your favourite playlists for hours!

Features **Radio FM** function and preset stations memory to become a complete multimedia player.

Your bluetooth battery device can be charged via the USB charging port (5V/1.7 A) included in the tower.

The speakers built-in multicolor LED lights are synced to the beat of your favorite music. Switching off and colour changing can be done from the control panel in the upper part.

Finally, NGS Skyline stands out for its stylish and modern design, with decors in trendy black and a base to stand on the floor that fits perfectly in to every home. As well as the high level of its wood finishes for achieving a clear and powerful sound.
