#### **FullSound™**

Philips' innovative FullSound technology faithfully restores sonic details to compressed MP3 music, dramatically enriching and enhancing it, so you can experience CD music without any distortion. Based on an audio post-processing algorithm, FullSound combines Philips' renowned expertise in music reproduction with the power of the latest generation Digital Signal Processor (DSP). The result is fuller bass with more depth and impact, boosted voice and instrument clarity, and rich detail. Rediscover your compressed MP3 music in true-tolife sound that will touch your soul and move your

- \* Storage capacity based on 4 minutes per song and 64 kbps WMA or 128 kbps MP3 encoding.
- Actual transfer speed may vary based on your operating system and software configuration.

  1 GB = 1 billion bytes; available storage capacity will be less.
- \* Rechargeable batteries have a limited number of charge cycles and may eventually need to be replaced. Battery life and number of charge cycles vary by use and settings.
