

IP-Function Module for KVM Switches

Designed to work with Intellinet Modular KVM Console / Switch range

Part No.: **507936**

EAN-13: 0766623507936 | UPC: 766623507936

The IP-Function module is designed for use with Intellinet Network Solutions KVM switches in small to medium server rooms where an administrator access must be available at all times and from any location. They provide a direct connection via the KVM switch connected to the computer through an existing Internet connection with a browser.

Compatible with 507776, 507844, 507882 and 507899.

Features:

- Remote KVM (keyboard, video and mouse) access over IP
- Remotely access computers via LAN, WAN, or the Internet
- Full control under all OS, including BIOS level, during boot process, and even at Blue Screens
- Remote, WEB-based management
- DES encryption of all transmitted data
- IP access via 10/100/1000 Mbps LAN
- Three-Year Warranty
